PROGRAMS AND SERVICES FOR ENGLISH LANGUAGE LEARNERS POLICY 2260.02

It is recognized that there may be students within the Oconomowoc Area School District whose primary language is not English. With that in mind, appropriate services for District students who possess limited or no command of English language shall be provided. The purpose of these services will be to help students acquire English language skills that will enable them to function successfully in an English classroom and to meet established academic standards.

Potential English Language Learners (ELL) students shall be identified through a process that begins when the student is initially enrolled in the district. Pending parent/guardian approval, ELL students begin receiving support. The degree of curricular and instructional modifications, type of support services, and their duration shall be determined individually, shall be based on student need, and shall follow district and state requirements. If a sufficient number of ELL students identified at a specific building are of the same language group to meet statutory requirements, the Board shall establish and implement a bilingual-bicultural education program as required by state law.

All communication with parent/guardian of potential and identified ELL students shall be consistent with legal requirements and shall be made in such a manner as to ensure that the student's parent/guardian understands them.

The District shall assess the English Proficiency and academic progress of potential and identified ELL students in accordance with legal requirements and established District policy and procedures.

ELL students will be exited from the program when they have met the district guidelines and state criteria for English proficiency. These students will be monitored for two years after exiting. Once a student has been exited, they will no longer take the ACCESS or receive testing accommodations on the state assessments.

**OCOMOWOC AREA SCHOOL DISTRICT CONFIDENTIALITY OF PERSONALLY
IDENTIFIABLE INFORMATION
OBTAINED THROUGH CHILD FIND ACTIVITIES**

Oconomowoc Area School District is required to locate, identify, and evaluate all children, with disabilities, including children with disabilities attending private schools in the school district, and homeless children. The process of locating, identifying, and evaluating children with disabilities is known as child find. This agency conducts the following child find activities each year: The school district has a special education screening program to locate and screen all children with suspected disabilities who are residents of the district and who have not graduated from high school. Upon request the school district will any resident child who has not graduated high school to determine whether a special education referral is appropriate. A request may be made by contacting the Director of Student Services/Special Education, Oconomowoc Area School District, at 262-560-2156, or by written request at 915 E. Summit Ave. Oconomowoc, WI 53066.

Annually the district conducts developmental screening of preschool children. Each child's motor, communication, and social skills are observed at various play areas. The information is used to provide the parent with a profile of their child's current development and to provide suggestions for follow-up activities. Parents learn about community services available to them. The information from screening is also used to determine whether a child should be evaluated for a suspected disability. When school staff reasonably believes a child is a child with a disability, they refer the child for evaluation by a school district Individualized Education Program (IEP) team. Please check district website for dates or contact Erin Lee at 262-560-8234.

This notice informs parents of the records the school district will develop and maintain as part of its child find activities. This notice also informs parents of their rights regarding any records developed.

The school district gathers personally identifiable information on any child who participates in child find activities. Parents, teachers, and other professionals provide information to the school related to the child's academic performance, behavior, and health. This information is used to determine whether the child needs special education services. Personally identifiable information directly related to a child and maintained by the school is a pupil record. Pupil records include records maintained in any way including, but not limited to, computer storage media, video and audiotape, film, microfilm, and microfiche. Records maintained for personal use by a teacher and not available to others and records available only to persons involved in the psychological treatment of a child are **not** pupil records.

The school district maintains several classes of pupil records.

- "Progress records" include grades, courses the child has taken, the child's attendance record, immunization records, required lead screening records, and records of school extra-curricular activities. Progress records must be maintained for at least five years after the child ceases to be enrolled.
- "Behavioral records" include such records as psychological tests, personality evaluations, records of conversations, written statements relating specifically to the pupil's behavior, tests relating specifically to achievement or measurement of ability, physical health records other than immunization and lead screening records, law enforcement officers' records, and other pupil records that are not "progress records." Law enforcement officers' records are maintained separately from other pupil records. Behavioral records may be maintained for no longer than one year after the child graduates or otherwise ceases to be enrolled, unless the parent specifies in writing that the records may be maintained for a

longer period of time. The school district informs parents when pupil records are no longer needed to provide special education. At the request of the child's parents, the school district destroys the information that is no longer needed.

- "Directory data" includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received, and the name of the school most recently previously attended by the student.
- "Pupil physical health records" include basic health information about a pupil, including the pupil's immunization records, an emergency medical card, a log of first aid and medicine administered to the pupil, an athletic permit card, a record concerning the pupil's ability to participate in an education program, any required lead screening records, the results of any routine screening test, such as for hearing, vision or scoliosis, and any follow-up to the test, and any other basic health information, as determined by the state superintendent. Any pupil record relating to a pupil's physical health that is not a pupil physical health record is treated as a patient health care record under sections 146.81 to 146.84, Wisconsin Statutes. Any pupil record concerning HIV testing is treated as provided under section 252.15, Wisconsin Statutes.

The Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), and section 118.125, Wisconsin Statutes, afford parents and students over 18 years of age ("eligible students") the following rights with respect to education records:

- **The right to inspect and review the student's education records within 45 days of receipt of the request.** Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the records(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. The school district will comply with the request without unnecessary delay and before any meeting about an individualized education program, or any due process hearing, and in no case more than 45 days after the request has been made. If any record includes information on more than one child, the parents of those children have the right to inspect and review only the information about their child or to be informed of that specific information. Upon request, the school district will give a parent or eligible student a copy of the progress records and a copy of the behavioral records. Upon request, the school district will give the parent or eligible student a list of the types and locations of education records collected, maintained, or used by the district for special education. The school district will respond to reasonable requests for explanations and interpretations of the records. A representative of the parent may inspect and review the records.

The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading. Parents or eligible students may ask the Oconomowoc School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record, the district will notify the parent or eligible student of the decision and the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- **The right to consent to disclosures of personally identifiable information in the student's education records, except to the extent that federal and state law authorize disclosure without consent.** The exceptions are stated in 34 CFR 99.31, Family Educational Rights and Privacy Act regulations; Sec. 9528, PL107-110, No Child Left Behind Act of 2001; and section 118.125(2)(a) to

(m) and sub. (2m), Wisconsin Statutes. One exception that permits disclosure without consent is disclosures to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. Also the district discloses "directory data" without consent, unless the parent notifies the district that it may not be released without prior parental consent.

- **The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.** The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202-4605.

DRUG PREVENTION POLICY 5530

The Board recognizes that the misuse of drugs is a serious problem with legal, physical, and social implications for the entire school community.

As the educational institution of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive, means.

For purposes of this policy, "drugs" shall mean:

all dangerous controlled substances as so designated and prohibited by Wisconsin statute;

- A. all chemicals that release toxic vapors;

- F. any other illegal substance so designated and prohibited by law.

The Board prohibits the use, possession, concealment, or distribution of any drug and any drug-paraphernalia at any time on District property or at any District-related event.

A student may be required to submit to a breath test to determine the presence of alcohol if a designated school official or law enforcement officer has reasonable suspicion that the student is under the influence of alcohol in violation of this policy. Such test shall be administered by a law enforcement officer or trained school official and shall meet state law requirements. A student may be disciplined for refusing to submit to a required breath test.

Students who violate this policy shall be subject to appropriate disciplinary action, up to and including student suspension and/or expulsion, and referral to law enforcement authorities. In all cases, the student shall be referred to the District's student assistance program (SAP) or Student Services Staff. The SAP is designed to educate, assist and support students who have alcohol and other controlled substances-related

concerns.

The District also encourages family and community efforts in providing necessary information, skills, role models and experiences which discourage student alcohol and other drug abuse and provide support to students experiencing problems related to alcohol and other drugs. Student referrals to appropriate community agencies may be made by school staff as part of student services interventions.

The parent will have access to the survey/evaluation within a reasonable period of time after the request is received by the building principal.

Consistent with parental rights, the Board directs building and program administrators to:

- A. notify parents in writing of any surveys, analyses, or evaluations that may reveal any of the information, as identified in A-H above, in a timely manner, and which allows interested parties to request an opportunity to inspect the survey, analysis, or evaluation; and the administrator to arrange for inspection prior to initiating the activity with students;

For purposes of this policy, the term "parent" includes a legal guardian or other person standing in loco parentis (such as grandparent or stepparent with whom the child lives or a person who is legally responsible for the welfare of the child).

ANNUAL ASBESTOS NOTIFICATION

Under AHERA (Asbestos Hazard Emergency Response Act), all primary and secondary schools are required to develop and implement a plan for managing all building materials which contain asbestos. Included in the AHERA Act is the requirement to annually notify all workers and building occupants (or their guardians) of asbestos-related activities.

Beginning in 1988, all buildings owned, leased, or “under the control of” the Oconomowoc Area School District were inspected by EPA accredited inspectors, with building material samples analyzed by an independent laboratory. Based on the inspection, the Oconomowoc Area School District prepared and the state approved a comprehensive management plan for managing the asbestos.

Where the asbestos-containing materials are found, the Oconomowoc Area School District has in place an Operations and Maintenance program. The District has accomplished the following compliance mandates regarding the administration of asbestos in school building

- A. Environmental Management Consulting, Inc. (EMC) was contracted to be the school’s consultant for asbestos.
- B. The District is continuing with the Operations and Maintenance Program as designed for the School District. This ensures that all asbestos materials are kept in good condition.
- C. Periodic “surveillance” in each area containing asbestos has been completed every six months by our consultant. Also, the buildings are re-inspected by an accredited inspector every three years.
- D. In the past year, the Oconomowoc School District conducted asbestos removal.

All outside contractors shall contact the lead maintenance person before commencing work.

A copy of the Asbestos Management Plan is available for review by contacting the school office. Questions related to this plan should be directed to the designated Asbestos Program Manager, Greg Maroo, who can be reached at 262-560-3134.

Our goal at the District is to be in full compliance with asbestos regulations.

It is our policy to maintain a safe and healthful environment for our students and our staff members.

This IEQ plan includes measures that include quality heating, ventilation and air conditioning (HVAC) systems, moisture control, integrated pest management, cleaning and maintenance schedules, appropriate materials selection, routine building inspections by maintenance personnel, appropriate training of staff, and communication.

A copy of the Indoor Environmental Quality (IEQ) Management Plan is available for review by contacting the District Office. Questions related to this plan should be directed to the Manager of Buildings and Grounds.

SCHOOL ATTENDANCE POLICY 5200

The Board will enforce regular student attendance in the District's program in which each student is enrolled as required pursuant to State law. Further, the Board recognizes that the District's educational program is predicated upon the participation of each student in the program of instruction in which the student is enrolled and required to attend. Student success requires continuity of instruction and program participation. For purposes of this policy, the regular period and hours of instruction including both those periods and hours a student's program requires that they are in school as well as any attendance requirements defined as part of a course of virtual instruction, or a combination of the more than one type of instructional delivery.

All children between six (6) and eighteen (18) years of age shall attend school regularly during the full period and hours, religious holidays excepted, that the school in which the child is enrolled is in session until the end of the term, quarter, or semester of the school year in which the child becomes eighteen (18) years of age unless they fall under an exception under State law, this policy, or administrative guideline issued under this policy. A child who is enrolled in five (5) year-old kindergarten shall attend school regularly, religious holidays excepted, during the full period and hours that kindergarten is in session until the end of the school term.

Excused Absences

As required under State law, a student shall be excused from school for the following reasons:

A. Physical or Mental Condition

The student is temporarily not in proper physical or mental condition to attend a school program. Absences for this reason may be excused by oral or written notification to the attendance officer by the adult student or minor student's parent. student for a period not the exceed thirty (30) days.

B. Obtaining Religious Instruction

To enable the student to obtain religious instruction outside the school during the required school period (see Policy 5223 - Absences for Religious Instruction).

C. Parent-Excused Pre-Planned Absence

The student has been excused in writing by their parent before the absence for any reason. A student may not be excused for more than ten (10) days per school year under this paragraph and must complete any coursework missed during the absence. Examples of reasons for being absent that should be counted under this paragraph include, but are not limited to, the following:

1. professional and other necessary appointments (e.g., medical, dental, and legal) that cannot be scheduled outside of the school day
2. to attend a funeral
3. legal proceedings that require the student's presence
4. college visits
5. job fairs

The student has been suspended or expelled.

F. Program or Curriculum Modification

The Board has excused the student from regular school attendance to participate in a program or curriculum modification leading to high school graduation or a high school equivalency diploma as provided by State law.

G. High School Equivalency – Secured Facilities

The Board has excused a student from regular school attendance to participate in a program leading to a high school equivalency diploma in a secured correctional facility, a secured child caring institution, a secure detention facility, or a juvenile portion of a county jail, and the student and the student's parent(s) agree that the student will continue to participate in such a program.

H. Child at Risk

The student is a "child at risk" as defined under State law and is participating in a program at a technical college on either a part-time or full-time basis leading to high school graduation, as provided under State law.

I. Election Day Official

A high school student, including students enrolled in private schools and students enrolled in home-based private education, age sixteen (16) or seventeen (17) is permitted to be excused to serve as an election official provided that the following criteria are met: (1) the student has the permission of their parent to serve as an election official on election day; (2) the student has signed up and the municipal clerk has informed the principal that the student has been assigned to serve in this capacity; and (3) the student has at least a 3.0 grade point average or equivalent, or has met alternative criteria established by Board, if any. The principal shall promptly notify the municipal clerk or the board of election commissioners of the municipality that appointed the child as an election official if the child no longer has at least a 3.0 grade point average or the equivalent, or no longer meets the established alternative requirements. A student's absence to serve as an election official under this policy shall be treated as an excused absence. Where possible students are encouraged to provide advance notice as much as possible. Students are responsible for completing any missed school work and responsible for making appropriate arrangements to do so.

J. Virtual Access

The student is unable to access virtual instruction programming due to a temporary disruption in the student's access to necessary technological systems (i.e. internet outage, computer failure, software malfunction, etc.) as communicated by the student's parent.

A student may be excused from school, as determined by the Principal or Principal's designee, for the following reasons:

A. Quarantine

Quarantine of the student's home by a public health officer.

B. Illness of an Immediate Family Member

The illness of an immediate family member.

C. Emergency

An emergency that requires the student to be absent because of familial responsibilities or other appropriate reasons

Unexcused Absences

Unexcused absences are absences from school for part or all of one (1) or more days from school without an acceptable excuse. Unexcused absences demonstrate a deliberate disregard for the educational program and are considered a serious matter. The District Administrator shall develop administrative guidelines to address unexcused absences.

Definitions

A. Truancy

A student will be considered truant if the student is absent part or all of one (1) or more days from school during which the School Attendance Officer, principal, or a teacher has not been notified of the legal cause of such absence by the parent of the absent student. A student who is absent intermittently for the purpose of defeating the intent of the Wisconsin Compulsory Attendance Statute 118.15, Wis. Stats., will also be considered truant.

B. Habitual Truant

A student will be considered a habitual truant if the student is absent from school without an acceptable excuse for part or all of five (5) or more days on which school is held during a school semester.

C. Part of a School Day

Part of a school day is any time period within a school day, which is from the time the first class period of that day begins until the end of the last class period of that day.

Tardiness/Late Arrival and Early Dismissal

It is necessary that a student be in attendance throughout the school day, or as required by the student's virtual instruction program, in order to benefit fully from the educational program of the District. Unless excused per this policy, tardiness, or late arrival, occurs when a student arrives at the student's registered class location after the bell that signals the start of the class period has sounded. Unless excused, early dismissal occurs when a student leaves the student's registered class location before the bell has rung signaling the end of the class period or the end of the school day. Tardiness and early dismissal can occur more than once per day. Tardiness and early dismissal constitute being absent for part of a school day.

The Board recognizes, however, that from time-to-time compelling circumstances require that a student be late to school or dismissed before the end of the school day.

As agent responsible for the education of the children of this District, the Board shall require that the school be notified in advance of such absences by written (including e-mail) or personal (phone or face-to-face) request of the student's parent, who shall state the reason for the tardiness or early dismissal.

No student who has a medical disability that may be incapacitating may be released without a person to accompany him/her.

No student shall be released to anyone who is not authorized such custody by the parents.

Notice of Truancy

The Principal or other designee shall notify a truant student's parent of the student's truancy and direct the parent to return the student to school no later than the next day on which school is in session or to provide an excuse for the absence. The notice under this paragraph shall be given before the end of the second school day after receiving a report of an unexcused absence. The notice may be made by electronic

communication, personal contact, telephone call, or 1st class mail, and a written record of this notice shall be kept. This notice must be given every time a student is truant until the student becomes a habitual truant.

Notice of Habitual Truancy

When a student initially becomes a habitual truant, the Principal or designee shall provide a notice to the student's parent, by registered or certified mail, or by 1st class mail. The Principal or designee may simultaneously notify the parent of the habitually truant student by an electronic communication. The notice must contain the following:

- A. a statement of the parent's responsibility under State law to cause the student to attend school regularly
- B. a statement that the parent or student may request program or curriculum modifications for the student under State law and that the student may be eligible for enrollment in a program for children at risk
- C. a request that the parent meet with the appropriate school personnel to discuss the student's truancy

The notice shall include the name of the school personnel with whom the parent should meet, a date, time, and place for the meeting and the name, address, and telephone number of a person to contact to arrange a different date, time, or place. The date for the meeting shall be within five (5) school days after the date that the notice is sent, except that with the consent of the student's parent the date for the meeting may be extended for an additional five (5) school days.

- D. a statement of the penalties, under State law or local ordinances that may be imposed on the parent upon failure to cause the child to attend school regularly as required by State law.
- E. if the student is attending the District through the Open Enrollment Program, each notification shall also inform the parent: (1) that the student's open enrollment may be terminated if the student is habitually truant; and (2) the process described in Board Policy 5113 - Open Enrollment Program (Inter-District), which the parent or student may follow if they believe the student was erroneously marked truant.

The Principal or designee will also continue to notify the parent of a habitual truant's subsequent unexcused absences.

Referral to the District Attorney

Truancy cases will be referred to the District Attorney as provided in the County Truancy Committee Plan. The School Attendance Officer will ensure that appropriate school personnel have done the following before any case is referred to the District Attorney:

- A. met with the student's parent to discuss the student's truancy or attempted to meet with the student's parent and received no response or were refused
- B. provided an opportunity for educational counseling to the student to determine whether a change in the student's curriculum would resolve the student's truancy and have curriculum modifications under State law

- C. evaluated the student to determine whether learning problems may be a cause of the student's truancy and, if so, have taken steps to overcome the learning problems, except that the student need not be evaluated if tests administered to the student within the previous year indicate that the student is performing at grade level
- D. conducted an evaluation to determine whether social problems may be a cause of the student's truancy and, if so, have taken appropriate action or made appropriate referrals

Note that paragraph A. is not required if the meeting between school personnel, the student, and the student's parent, which was requested in the Notice of Habitual Truancy to the parent, did not occur within ten (10) school days after the Notice was sent. Paragraphs B., C., and D. are not required if appropriate school personnel were unable to carry out the activity due to the student's absences from school.

Make-up Coursework and Examinations

Excused Absences

A student whose absence from school was excused, except for an expelled student, shall be permitted to make-up coursework and any quarterly, semester, or grading period examinations missed during the absences when they return to school. It is the student's responsibility to contact their teachers to determine what coursework and examinations must be made-up. Teachers shall have the discretion to assign substitute coursework and examinations. Teachers shall also have the discretion to specify where and when examinations and coursework shall be completed, including outside regular school hours. The time for completing the work shall be commensurate with the length of the absence unless extended by the principal based upon extenuating circumstances.

Unexcused Absences

Credit in a course or subject shall not be denied solely because of a student's unexcused absences from school.

Students with unexcused absences shall be permitted to make-up coursework and any quarterly, semester, or grading period examinations missed during the absence if the student is at risk of receiving no credit in a course or subject if the work is not made up.

Subject to the immediately preceding two (2) paragraphs, credit may, but is not required to be given for the completion of make-up work. Further, credit for make-up work may be given only after the student has satisfied consequences imposed for unexcused absences. The extent to which make-up credit is given shall be determined on a case-by-case basis by the principal and the respective teachers.

If make-up work has been assigned, it is the student's responsibility to contact their teachers to determine what coursework and examinations must be made-up. Teachers shall have the discretion to assign substitute coursework and examinations. Teachers shall also have the discretion to specify where and when examinations and coursework shall be completed, including outside regular school hours. The time for completing the work shall be commensurate with the length of the absence unless extended by the principal based upon extenuating circumstances.

PROGRAMS FOR STUDENTS WITH DISABILITIES POLICY 2460

The Board shall provide a free, appropriate public education to all eligible disabled persons ages three (3) through twenty-one (21) which complies with Federal and State laws and guidelines.

The District provides a continuum of special education services. The determination of the need and extent of services provided shall be subject to the Individual Educational Program (IEP) developed for the child.

The District adopts the Wisconsin Department of Public Instruction Special Education Model Forms and Policies and Procedures Manual as the Board's official policy in all practices and procedures relating to the education of children with disabilities in this school District, in compliance with State and Federal laws and regulations. The Board further assures that all District employees shall comply with the procedures and responsibilities laid forth within this manual as updated periodically by the Wisconsin Department of Public Instruction.

The Board and Administration supports the requirements of State and Federal law that students with disabilities be educated, to the maximum extent appropriate, with children who are nondisabled. The Board further supports the State and Federal requirement that a continuum of alternative placements be available to meet the needs of students with disabilities eligible for special education services under the Individuals with Disabilities Education Act (IDEA).

The District identifies, locates, and evaluates all children with disabilities, regardless of the severity of the disability, who are in need of special education and related services. This includes children attending private schools, who are not yet three (3) years of age, highly mobile children such as migrant children and children and youth in transition, and children who are suspected of being a student with a disability even though they are advancing from grade to grade.

Students with disabilities will take State-required tests unless otherwise prescribed in their IEP. Test administration procedures may be modified as indicated in a student's IEP.

SEARCH AND SEIZURE POLICY 5771

The Board has charged school authorities with the responsibility of safeguarding the safety and well-being of the students in their care. In the discharge of that responsibility, school authorities may search school property such as lockers used by students or the person or property, including vehicles, of a student, in accordance with the following policy.

School Property

The Board acknowledges the need for in-school storage of student possessions and shall provide storage places, including desks and lockers, for that purpose. Desks and lockers are public property and school authorities may make reasonable regulations regarding their use. The District retains ownership and possessory control of student desks and lockers and the same may be searched at random by school personnel at any time. A showing of reasonable cause or suspicion is not a necessary precondition to a search under this paragraph. Students shall not have an expectation of privacy in lockers, desks, or other school property as to prevent examination by a school official. The Board directs the Principal to provide students with written notice of this policy at least annually and that routine inspections be done at the discretion of the Principal of all such storage places.

The Board directs that the searches may be conducted by the District Administrator, building principals, assistant principals, School Resource Officer, or other personnel as designated by the District Administrator or building principal.

Student Person and Possessions

The Board recognizes that the privacy of students or their belongings may not be violated by unreasonable search and seizure and directs that no student be searched without reasonable suspicion that the search will turn up evidence that the student has violated or is violating either a particular law or a particular rule of the school. Any search under this paragraph must be reasonable in scope and reasonable in the manner in which it is conducted. The extent of the search will be governed by the seriousness of the suspected infraction, the student's age and gender, the student's disciplinary history, and any other relevant circumstances or information.

The Principal may arrange for a breath test for blood-alcohol to be conducted on a student whenever they have individualized reasonable suspicion to believe the student has consumed or is under the influence of an alcoholic beverage while on school premises or while participating in a school-sponsored activity. If the result indicates a violation of school rules as described in the student handbook, the disciplinary procedure described in the student handbook will be followed. If the student refuses to take the test, the Principal will inform the student that refusal to participate implies an admission of guilt leading to disciplinary action consistent with the student handbook.

This authorization to search shall also apply to all situations in which the student is under the jurisdiction of the Board.

In a situation in which a search of a student's person or possessions is appropriate, school administrators should first attempt to contact the school resource officer to conduct the search under the administrator's direction. If the school does not have a school resource officer or if the officer is not available, the administrator may proceed with the search, unless the information justifying the search suggests that the student is in possession of dangerous materials whereby the expertise of law enforcement is necessary. In such a case, the school official shall contact law enforcement and request their assistance.

Under no circumstances shall a school official ever conduct a strip search of a student.

Parking Permit Required

Permission for a student to bring a vehicle on school property shall be conditioned upon written consent of the search of the vehicle and all containers inside the vehicle by a school administrator with reasonable suspicion to believe the search will produce evidence of a violation of a particular law, a school rule, or a condition that endangers the safety or health of the student driver or others. If an administrator determines a search is necessary, he or she should request consent to search the vehicle and all containers inside the vehicle. If consent is not given, a school administrator may proceed with the search. An administrator may contact the police liaison officer or law enforcement agency for assistance in conducting a search.

Except as provided below, a request for the search of a student or a student's possessions will be directed to the Principal. The Principal shall attempt to obtain the freely-offered, written or verbal consent of the student to the inspection; however, provided there is reasonable suspicion pursuant to the above paragraphs, they may conduct the search without such consent. Whenever possible, a search will be conducted by the principal in the presence of the student and a staff member other than the principal. A

search prompted by the reasonable suspicion that health and safety are immediately threatened will be conducted with as much speed and dispatch as may be required to protect persons and property.

Search of a student's person or intimate personal belongings shall be conducted by a person of the student's gender, in the presence of another staff member of the same gender, and in a manner that is minimally intrusive to the student based on the reasonable suspicion justifying the search.

Use of Dogs

The Board authorizes the use of specially-trained dogs to detect the presence of drugs and devices such as bombs on school property under the following conditions:

- The presence of the dogs on school property is authorized in advance by the District Administrator, except in emergency situations, or is pursuant to a court order or warrant.
- The dog must be handled by a law enforcement officer or certified organization specially trained to safely and competently work with the dog.
- The dog is represented by the Sheriff or Chief of the law enforcement agency providing the service as capable of accurately detecting drugs and/or devices.

The principal shall be responsible for the prompt recording in writing of each student search, including the reasons for the search; information received that established the need for the search and the name of informant, if any; the persons present when the search was conducted; any substances or objects found and the disposition made of them; and any subsequent action taken. The principal shall be responsible for the custody, control, and disposition of any illegal or dangerous substance or object taken from a student.

The District Administrator may request the assistance of a law enforcement agency in implementing any aspect of this policy. Where law enforcement officers participate in a search on school property or at a school activity pursuant to a request from the District Administrator, the search shall be conducted by the law enforcement officers at the direction of a District official. Law enforcement searches conducted independently of any District official request or direction shall be conducted based on standard applicable to law enforcement.

Anything found in the course of a search pursuant to this policy that constitutes evidence of a violation of a particular law or school rule or which endangers the safety or health of any person shall be seized and properly cataloged for use as evidence if appropriate. Seized items shall be returned to the owner if the items may be lawfully possessed by the owner. Seized items that may not lawfully be possessed by the owner shall be turned over to law enforcement.

The District Administrator shall provide students and staff with written notice of this policy and guidelines at least annually.

STUDENT HAZING POLICY 5516

The Board believes that hazing activities of any type are inconsistent with the educational process and may in some circumstances be a violation of State law. It prohibits all such activities at any time in school facilities, on school property, and at any District-sponsored activity or event.

Hazing shall be defined for purposes of this policy as performing any act or coercing another, including the victim, to perform any act of initiation into any class, group, or organization that causes or creates a risk of causing mental, emotional, or physical harm. Permission, consent, or assumption of risk by an individual subjected to hazing shall not lessen the prohibitions contained in this policy.

Administrators, faculty members, and other employees of the District shall be alert to possible situations, circumstances, or events that might include hazing. If hazing or planned hazing is discovered, the students involved shall be informed by the discoverer of the prohibitions contained in this policy and shall be ordered to end all hazing activities or planned activities immediately. All hazing incidents shall be reported immediately to the Principal or to the District Administrator. The individual informed of the situation shall immediately do the following:

1. Write all information concerning the reported activity or planned activity received from the person reporting the incident to create a complete record of the initial contact with the administration.
2. Determine if any potential criminal activity has occurred and if so contact law enforcement immediately.
3. Determine whether the information received illustrates hazing behavior that is based on the student's or any group of students sex (including transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or State civil rights laws ("Protected Classes"). If the conduct reported appears to be based on one (1) or more Protected Class, or information surfaces in that regard, the administrator shall inform the District Compliance Officer and refer to Policy 5517 – Student Anti-Harassment and proceed accordingly.
4. If the hazing or planned hazing does not appear to be based on any Protected Classes, then the administrator shall proceed to conduct an investigation consistent with the procedures found in Policy 5517.01 - Bullying.

Students, administrators, faculty members, and other employees who fail to abide by this policy may be subject to disciplinary action and may be held personally liable for civil or criminal penalties. Disciplinary action for students may include, but is not limited to, suspension and/or expulsion. Disciplinary action for staff members may be issued up to and including termination from employment. (See Policy 3139 – Staff Discipline, Policy 3140 - Non-renewal, Resignation, and Termination, Policy 4140 - Termination and Resignation, or Policy 4139 – Staff Discipline).

The District Administrator shall distribute this policy to all students and District employees, and shall incorporate it into the, staff and student handbooks. When necessary, it shall also be the subject of discussion at employee staff meetings or in-service programs.

STUDENT ANTI-HARASSMENT POLICY 5517

Prohibited Harassment

It is the policy of the Board to maintain an educational environment that is free from all forms of harassment. This commitment applies to all District operations, programs, and activities. All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of harassment. This policy applies to conduct occurring in any manner or setting over which the Board can exercise control, including on school property, or at another location if such conduct occurs during an activity sponsored by the Board.

The Board will not tolerate any form of harassment and will take all necessary and appropriate actions to eliminate it, including suspension or expulsion of students and disciplinary action against any other individual in the School District community. Additionally, appropriate action will be taken to stop and otherwise deal with any third party who engages in harassment against our students.

The Board will vigorously enforce its prohibition against harassment based on the traits of sex (including gender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or State civil rights laws (hereinafter referred to as "Protected Classes"), and encourages those within the School District community as well as Third Parties, who feel aggrieved to seek assistance to rectify such problems. Additionally, the Board prohibits harassing behavior directed at students for any reason, even if not based on one of the Protected Classes, through its policies on bullying (See Policy 5517.01 – Bullying).

The Board will investigate all allegations of harassment and in those cases where harassment is substantiated, the Board will take immediate steps designed to end the harassment, prevent its reoccurrence, and remedy its effects. Individuals who are found to have engaged in harassment will be subject to appropriate disciplinary action.

Other Violations of the Anti-Harassment Policy

The Board will also take prompt steps to impose disciplinary action on individuals engaging in any of the following prohibited acts:

- A. Retaliating against a person who has made a report or filed a complaint alleging harassment, or who has participated as a witness in a harassment investigation;
- B. Filing a malicious or knowingly false report or complaint of harassment;
- C. Disregarding, failing to investigate adequately, or delaying investigation of allegations of harassment, when responsibility for reporting and/or investigating harassment complaints comprises part of one's duties

Sexual Harassment covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities, i.e., sexual harassment prohibited by Title IX, is not included in this policy. Allegations of such conduct shall be addressed by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities.

Notice

Notice of the Board's policy on anti-harassment in the educational environment and the identity of the District's Compliance Officers will be posted throughout the District and published in any District statement regarding the availability of employment, staff handbooks, and general information publications of the District as required by Federal and State law and this policy.

Definitions

Words used in this policy shall have those meanings defined herein; words not defined herein shall be construed according to their plain and ordinary meanings.

Complainant is the individual who alleges, or is alleged, to have been subjected to harassment, regardless of whether the person files a formal complaint or is pursuing an informal resolution to the alleged harassment.

Day(s) means business day(s) (i.e., a day(s) that the District office is open for normal operating hours, Monday – Friday, excluding State-recognized holidays) unless expressly stated otherwise herein.

Respondent is the individual who has been alleged to have engaged in harassment, regardless of whether the Reporting Party files a formal complaint or is seeking an informal resolution to the alleged harassment.

School District community means individuals, students, administrators, teachers, and staff, as well as Board members, agents, volunteers, contractors, or other persons subject to the control and supervision of the Board.

Third Parties include, but are not limited to, guests and/or visitors on School District property (e.g., visiting speakers, participants on opposing athletic teams, parents), vendors doing business with, or seeking to do business with, the Board, and other individuals who come in contact with members of the School District community at school-related events/activities (whether on or off District property).

Bullying

Bullying is prohibited by Board Policy 5517.01 – Bullying. It includes but is not limited to deliberate or persistent behavior, using words or actions, that is intended to cause fear, physical harm or psychological distress on another student and has the effect of doing any of the following:

- A. substantially interfering with a student's education or school performance;
- B. creating an intimidating or fearful environment in a school setting for a student or group of students;
or
- C. substantially disrupting the orderly operation of the school.

Complaints brought under this policy that are more appropriately handled under the Bullying policy shall be referred for investigation consistent with the procedures in that policy.

Bullying that rises to the level of Sexual Harassment is covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities, i.e., sexual harassment prohibited by Title IX, and is not

included in this policy. Allegations of such conduct shall be addressed by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities.

Harassment

Although different state and federal laws establish different standards to define conduct that does (or does not) constitute prohibited student harassment, prohibited harassment under this policy generally includes behavior (or any course of conduct) affecting one or more students that is based, in whole or in part, on a legally-protected status or classification and that:

- A. Substantially interferes with a student's school performance;
- B. Substantially interferes with a student's ability to participate in or benefit from any District activity or program; or
- C. Creates an intimidating, hostile, or offensive environment within any District school, activity, or program.

Sexual Harassment

In addition, as defined and prohibited under the federal Title IX regulations (see 34 C.F.R. §106.30), sexual harassment of a student also expressly includes conduct on the basis of sex within a District program or activity that either (1) involves a District employee conditioning the provision of an aid, benefit, or service of the District on a student's participation in unwelcome sexual conduct; (2) is unwelcome and sufficiently severe, pervasive, and objectively offensive so as to deny a student equal access to an education program or activity; or (3) constitutes sexual assault, stalking, dating violence, or domestic violence as those terms are further defined under the Title IX regulations.

The person responsible for the prohibited harassment may be another student, a District employee, a non-employee acting as an agent or contractor of the District, or another person who is present in, or who engages in conduct that sufficiently impacts, the educational environment or the applicable District program or activity. Persons who engage in prohibited harassment in violation of this policy are subject to District-imposed discipline or other sanctions, and the District may provide victims of harassment with appropriate accommodations or other remedies.

Not all behavior with sexual connotations constitutes sexual harassment. Sex-based or gender-based conduct must be sufficiently severe, pervasive, or persistent such that it adversely affects, limits, or denies an individual's education, or such that it creates a hostile or abusive educational environment, or such that it is intended to, or has the effect of, denying or limiting a student's ability to participate in or benefit from the educational program or activities.

In addition to investigating and taking appropriate corrective action in instances of harassment, or of sexual harassment or other sexual misconduct, the District shall make available to the victim of such harassment or misconduct resources to assist the student with coping with the effects of victimization. The school counseling services shall identify available resources in the community and provide assistance to students in contacting such resources if desired by the student. The District will not directly provide or pay for assistance unless such services are available in the District program or the Board otherwise approves.

It is further the policy of the Board that a sexual relationship between staff and students is not permissible in any form or under any circumstances, in or out of the workplace, in that it interferes with the educational

process and may involve elements of coercion by reason of the relative status of a staff member to a student.

Anti-Harassment Compliance Officers

The Board designates the following individuals to serve as the District's Compliance Officers (also known as "Anti-Harassment Compliance Officers"; hereinafter referred to as the "COs").

Stacy Yearling
Director of Student Services
915 E. Summit Avenue
Oconomowoc, WI 53066

(262) 560-2156
yearlings@oasd.org

John Flannery
Assistant Superintendent for Teaching and Learning
915 E. Summit Avenue
Oconomowoc, WI 53066

(262) 560-2116
flannerj@oasd.org

The names, titles, and contact information of these individuals will be published annually on the School District's website.

The Compliance Officer(s) are responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding harassment.

Reports and Complaints of Harassing Conduct

Reporting procedures are as follows:

- A. Any student who believes they have been the victim of harassment prohibited under this policy will be encouraged to report the alleged harassment to any District employee, such as a teacher, administrator or other employees.
- B. Any parent of a student who believes the student has been the victim of harassment prohibited under this policy is encouraged to report the alleged harassment to the student's teacher, building administrator or District Administrator.
- C. Teachers, administrators, and other school employees who have the knowledge or received notice that a student has or may have been the victim of harassment prohibited under this policy shall report the alleged harassment to one (1) of the Compliance Officer(s) and the building principal or District Administrator within two (2) days.
- D. Any other person with knowledge or belief that a student has or may have been the victim of

harassment prohibited by this policy shall be encouraged to immediately report the alleged acts to any District employee, such as a teacher, administrator or other employees.

- E. The reporting party or Complainant shall be encouraged to use a report form available from the principal of each building or available from the District office. Use of formal reporting forms shall not be mandated. However, all oral complaints shall be reduced to writing.
- F. To provide individuals with options for reporting harassment to an individual of the gender with which they feel most comfortable, the Board has designated both a male and a female Compliance Officer for receiving reports of harassment prohibited by this policy. At least one (1) Compliance Officer or other individuals shall be available outside regular school hours to address complaints of harassment that may require immediate attention.

A CO will be available during regular school/work hours to discuss concerns related to harassment and to assist students, other members of the School District community, and third parties who seek support or advice when informing another individual about "unwelcome" conduct, or to intercede informally on behalf of the student.

Any Board employee who directly observes harassment of a student is obligated, in accordance with this policy, to report such observations to one of the COs within two (2) days. Thereafter, the COs must contact the Complainant, if over age eighteen (18) or the Complainant's parents/guardians if under age eighteen (18), within two (2) days to advise of the Board's intent to investigate the alleged misconduct, including the obligation of the Compliance Officer to conduct an investigation following all the procedures outlined in the complaint procedures.

The COs are assigned to accept complaints of harassment directly from any member of the School District community or a Third Party, or to receive complaints that are initially filed with a school building administrator. Upon receipt of a complaint, either directly or through a school building administrator, a CO will contact the Complainant and begin either an informal or formal process (depending on the request of the Complainant or the nature of the alleged harassment), or the CO(s) will designate a specific individual to conduct such a process as identified in a pre-defined list of investigators. The Compliance Officer(s) will provide a copy of this policy to the Complainant and Respondent. The CO will prepare recommendations for the District Administrator. In the case of a complaint against the District Administrator or a Board member, the CO will prepare recommendations for the Board Attorney who has been designated to serve as the decision-maker for such complaints. All Board employees must report incidents of harassment that are reported to them to the Compliance Officer as soon as possible, but always within no more than two (2) days of learning of the incident.

In cases where no District CO is able to investigate a complaint due to concerns regarding conflicts, bias, or partiality, or for other reasons that impair the CO's ability to conduct an investigation, the CO may, in consultation with the District Administrator, or Board President if the matter involves the District Administrator, engage outside legal counsel to conduct the investigation consistent with this policy.

Filing a Complaint and Initial Processing of a Complaint

Except for Sexual Harassment that is covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities, any student, or the student's parent/guardian, who believes that the student has been subjected to harassment may seek resolution of the complaint through the procedures described below. The formal complaint process involves an investigation of the Complainant's claims of harassment

or retaliation and a process for rendering a decision regarding whether the charges are substantiated.

The procedures set forth below are not intended to interfere with the rights of a student to pursue a complaint of harassment or retaliation with the United States Department of Education Office for Civil Rights ("OCR") and/or other applicable government agency. The Chicago Office of the OCR can be reached at John C. Kluczynski Federal Building, 230 S. Dearborn Street, 37th Floor Chicago, IL 60604; Telephone: 312-730-1560; FAX: 312-730-1576; TDD: 800-877-8339; Email: OCR.Chicago@ed.gov; Web: <http://www.ed.gov/ocr>.

If at any time during the investigation process the investigator determines that the complaint is properly defined as Bullying, under Policy 5517.01 - Bullying and not Harassment under this Policy, because the conduct at issue is not based on a student's Protected Characteristics, the investigator shall transfer the investigation to the appropriate building principal.

If during an investigation of alleged bullying, aggressive behavior, and/or harassment, in accordance with Policy 5517.01 - Bullying, the Principal believes that the reported misconduct may have created a hostile educational environment and may have constituted discriminatory harassment based on a Protected Class, the Principal shall report the act of bullying, aggressive behavior, and/or harassment to one (1) of the Compliance Officer(s) who shall investigate the allegation in accordance with this policy. If the alleged harassment involves Sexual Harassment as defined by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities, the matter will be investigated in accordance with the grievance process and procedures outlined in Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities. While the Compliance Officer investigates the allegation, or the matter is being addressed pursuant to Policy 2266, the Principal shall suspend the Policy 5517.01- Bullying investigation to await the Compliance Officer's written report or the determination of responsibility pursuant to Policy 2266 -Nondiscrimination on the Basis of Sex in Education Program or Activities. The Compliance Officer shall keep the Principal informed of the status of the investigation under this policy and provide the Principal with a copy of the resulting report. Likewise, the Title IX Coordinator will provide the Principal with the determination of responsibility that results from the Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities grievance process.

Complaint and Investigation Procedure

A Complainant may file a complaint in writing with a teacher, principal, or other District employee at the student's school, the CO, District Administrator, or other District official who works at another school or at the District level. Due to the sensitivity surrounding complaints of harassment, timelines are flexible for initiating the complaint process; however, individuals should make every effort to file a complaint within thirty (30) days after the conduct occurs while the facts are known and potential witnesses are available. If a Complainant informs a teacher, principal, or other District official at the student's school, the CO, District Administrator, or other District employee, either orally or in writing, about any complaint of harassment, that employee must report such information to the CO within two (2) days.

Throughout the course of the process, the CO should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All complaints must include the following information to the extent known: the identity of the Respondent; a detailed description of the facts upon which the complaint is based (i.e., when, where, and what occurred); and a list of potential witnesses.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the Compliance Officer shall ask for such details in an oral interview. Thereafter the CO will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the reported charge by signing the document.

Upon receiving a complaint, the CO will consider whether any action should be taken in the investigatory phase to protect the Complainant from further harassment or retaliation including but not limited to a change of class schedule for the Complainant or the Respondent, or possibly a change of school for either or both of the parties. In making such a determination, the Compliance Officer should consult the Principal and District Administrator prior to any action being taken, except for complaints against the District Administrator, in which case the Board President should be consulted. The Complainant should be notified of any proposed action prior to such action being taken.

As soon as appropriate in the investigation process, the CO will inform the Respondent that a complaint has been received. The Respondent will be informed about the nature of the allegations and a copy of any relevant policies and/or administrative procedures and the Board's anti-harassment policy shall be provided to the Respondent at that time. The Respondent must also be provided an opportunity to respond to the complaint.

All investigations shall be commenced as soon as practicable upon receipt of a complaint and concluded as expeditiously as feasible, in consideration of the circumstances, while taking measures to complete a thorough investigation. The Complainant shall be notified in writing of receipt of the complaint within forty-five (45) days of the complaint and shall reach a determination concerning the complaint within ninety (90) days of receipt unless additional time is agreed to by the Complainant.

Generally, within two (2) days of receiving the complaint, the CO will initiate an investigation by at a minimum confirming receipt of the complaint with the Complainant and informing the Complainant of the investigation process.

The investigation generally will include:

- A. interview(s) with the Complainant;
- B. interview(s) with the Respondent;
- C. interviews with any other witnesses who reasonably may be expected to have any information relevant to the allegations, as determined by the CO;
- D. consideration of any documentation or other evidence presented by the Complainant, Respondent, or any other witness that is reasonably believed to be relevant to the allegations, as determined by the CO.

At the conclusion of the investigation, the CO shall prepare and deliver a report to the District Administrator which summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definition of harassment as provided in Board policy and State and Federal law as to whether the Respondent engaged in harassment/retaliation of the Complainant. In determining if harassment occurred, a preponderance of evidence standard will be used. The CO's recommendations must be based upon the totality of the circumstances, including the ages and maturity levels of those involved.

The CO may consult with the Board's attorney during the course of the investigatory process and/or before finalizing the report to the District Administrator.

Generally, within five (5) days of receiving the report of the CO or designee, the District Administrator, or in the case of a complaint against the District Administrator or a Board member, the person designated to serve as the decision-maker for the complaint either must issue a written decision regarding whether the complaint has been substantiated or request further investigation. A copy of the District Administrator's final decision will be delivered to both the Complainant and the Respondent. The District Administrator may redact information from the decision consistent with applicable law. The Board authorizes the District Administrator to consult with legal counsel to determine the extent to which information in an investigation report must be provided to either the Complainant or Respondent.

If the District Administrator requests additional investigation, the District Administrator must specify the additional information that is to be gathered, and such additional investigation must be completed within five (5) days. At the conclusion of the additional investigation, the District Administrator must issue a final written decision as described above.

The decision of the District Administrator shall be final. If the Complainant feels that the decision does not adequately address the complaint they may appeal the decision to the State Superintendent of Public Instruction by submitting a written request to the Wisconsin Department of Public Instruction ("DPI"), Pupil Nondiscrimination Program, or by contacting the DPI Pupil Nondiscrimination Program at (608) 267-9157.

The Board reserves the right to investigate and resolve a complaint or report of harassment regardless of whether the member of the School District community or Third Party alleging the harassment pursues the complaint. The Board also reserves the right to have the complaint investigation conducted by an external person in accordance with this policy or in such other manner as deemed appropriate by the Board.

To the extent required by law or permitted by the District, the parties may be represented, at their own cost, at any of the above-described meetings/hearings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the Office for Civil Rights, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Additional School District Action

If the evidence suggests that the harassment at issue is a crime or requires mandatory reporting under the Children's Code (Sec. 48.981, Wis. Stat.), the CO or District Administrator shall report the harassment to the appropriate social service and/or law enforcement agency charged with responsibility for handling such investigations and crimes.

Any reports made to the local child protection service or to local law enforcement shall not terminate the CO's obligation and responsibility to continue to investigate a complaint of harassment. While the COs may work cooperatively with outside agencies to conduct concurrent investigations, in no event shall the harassment investigation be inhibited by the involvement of outside agencies without good cause after consultation with the District Administrator.

Privacy/Confidentiality

The District will employ all reasonable efforts to protect the rights of the Complainant, the Respondent(s), and the witnesses as much as possible, consistent with the District's legal obligations to investigation, take appropriate action, and comply with any discovery or disclosure obligations. Confidentiality cannot be guaranteed, however. Respondents must be provided an opportunity to meaningfully respond to allegations, which may include disclosure of the Complainant's identity.

All records generated under the terms of this policy shall be maintained as confidential to the extent permitted by law. Additionally, the Respondent must be provided with the Complainant's identity.

During the course of an investigation, the CO will instruct each person who are interviewed about the importance of maintaining confidentiality. Any individual who is interviewed as part of an investigation is expected not to disclose to Third Parties any information that is learned or provided during the course of the investigation.

Directives During Investigation

The CO may recommend to the District Administrator placing any employee involved in an investigation under this Policy on administrative leave pending resolution of the matter. If the District Administrator is the Respondent, the CO shall make such recommendation to the Board. For example, administrative leave may be appropriate in situations in which protecting the safety of any individual or the integrity of the investigation necessitates such action.

The CO shall determine whether any witnesses in the course of an investigation should be provided a Garrity warning apprising the person of their obligations to answer questions truthfully and honestly while preserving the right against self-incrimination in the context of any resulting criminal investigation or prosecution.

Every employee interviewed in the course of an investigation is required to provide truthful responses to all questions. Failure to do so may result in disciplinary action.

Remedial Action and Monitoring

If warranted, appropriate remedial action shall be determined and implemented on behalf of the Complainant, including but not limited to counseling services, reinstatement of leave taken because of the discrimination, or other appropriate action.

The Board may appoint an individual, who may be a District employee, to follow up with the Complainant to ensure no further discrimination or retaliation has occurred and to take action to address any reported occurrences promptly.

Sanctions and Disciplinary Action

The Board shall vigorously enforce its prohibitions against harassment by taking appropriate action reasonably calculated to stop the harassment and prevent further misconduct.

While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable law.

When imposing discipline, the District Administrator shall consider the totality of the circumstances involved in the matter, including the age and maturity level of any student involved. In those cases where harassment is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies.

Where the Board becomes aware that a prior disciplinary action has been taken against the Respondent, all subsequent sanctions imposed by the Board and/or District Administrator shall be reasonably calculated to end such conduct, prevent its reoccurrence, and remedy its effects.

Retaliation

Retaliation against a person who makes a report or files a complaint alleging harassment/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made by any Federal or State civil rights law, or because that individual made a report, formal complaint, testified, assisted or participated or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person for making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in imposition of disciplinary sanctions/consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of discriminatory practices. The District Administrator shall provide appropriate information to all members of the School District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training, as well as all information, provided regarding the Board's policy and discrimination in general, will be age and content appropriate.

Retention of Investigatory Records and Materials

The CO is responsible for overseeing retention of all records that must be maintained pursuant to this policy. All individuals charged with conducting investigations under this policy shall retain all information, documents, electronically stored information ("ESI"), and electronic media (as defined in Policy 8315) created and received as part of an investigation which may include but are not limited to:

- N. copies of the Board policy and/or procedures/guidelines used by the District to conduct the investigation, and any documents used by the District at the time of the alleged violation to communicate the Board's expectations to students and staff with respect to the subject of this policy (e.g., Student Code of Conduct and/or Employee Handbooks);
- O. copies of any documentation that memorializes any formal or informal resolutions to the alleged discrimination or harassment;
- P. documentation of any training provided to District personnel related to this policy, including but not limited to, notification of the prohibitions and expectations of staff set forth in this policy and the role and responsibility of all District personnel involved in enforcing this policy, including their duty to report alleged violations of this policy and/or conducting an investigation of an alleged violation of this policy.

The information, documents, ESI, and electronic media (as defined in Policy 8315) retained may include public records and records exempt from disclosure under Federal and/or State law (e.g., student records).

The information, documents, ESI, and electronic media (as defined in Policy 8315 - Information Management) created or received as part of an investigation shall be retained in accordance with Policy

8310 - Public Records, Policy 8315 - Information Management, Policy 8320 - Personnel Records, and Policy 8330 - Student Records for not less than three (3) years, but longer if required by the District's records retention schedule.

BULLYING POLICY 5517.01

The Board is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community. Bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, including at any of the school buildings or other property used exclusively or in part, whether leased or owned by the District, for the purpose of school-related functions or events; or while traveling to or from school or to and from school-sponsored functions or events; in transporting vehicles arranged for by School District officials. The policy applies as well during activities that occur off school property if the student or employee is at any school-sponsored, school-approved, or school-related activity or function, such as field trips or athletic events where students are under the supervision of school authorities, or where an employee is engaged in school business, or where there is otherwise a connection to the school such that the conduct at issue affects or is intended to affect the student's educational environment.

Definitions

"Bullying"

Includes but is not limited to deliberate or persistent behavior, using words or actions, that is intended to cause fear, physical harm or psychological distress on another student and has the effect of doing any of the following:

- A. substantially interfering with a student's education or school performance;
- B. creating an intimidating or fearful environment in a school setting for a student or group of students;
or
- C. substantially disrupting the orderly operation of the school.

"Harassment" includes, but is not limited to, any act that subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written, or physical nature on the basis of sex (including transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation, physical, mental, emotional, or learning disability, or any other characteristic protected by Federal or State civil rights laws. For a definition of and instances that could possibly be construed as hazing, consult Policy 5516.

Complaint Procedures

Any student who believes they have been or are the victim of bullying should report the situation to the building principal, assistant principal, or counselor. Complaints involving the building principal should be filed with the District Administrator. Complaints involving the District Administrator should be filed with the Board President.

Complaints against a Board member shall be filed with the District Administrator who is authorized to contact District legal counsel for assistance in handling the complaint.

Every student is encouraged to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

All school staff members and school officials who observe or become aware of acts of bullying shall intervene promptly and firmly against it, and shall report the bullying to those identified above.

Reports of bullying may be made verbally or in writing and may be made confidentially. All such reports, whether verbal or in writing, will be taken seriously and a clear account of the incident is to be documented. A written record of the report, including all pertinent details, will be made by the recipient of the report.

All complaints about behavior that may violate this Policy shall be investigated promptly by the Principal/designee

If, during an investigation of a reported act of bullying in accordance with this Policy, the Principal determines that the reported misconduct may have created a hostile learning environment, discrimination, and/or may have constituted harassment based on sex (transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation, physical, mental, emotional, or learning disability, or any other characteristic protected by Federal or State civil rights laws, the Principal will report the act of bullying to one (1) of the Compliance Officers who shall assume responsibility to investigate the allegation in accordance with Policy 5517 – Student Anti-Harassment or Policy 2260 - Nondiscrimination and Access to Equal Educational Opportunity.

Additionally, complaints alleging sexual harassment on the basis of sex are also covered by and subject to the investigation procedures in Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities. If the investigation under Policy 5517 - Student Anti-harassment, Policy 2260 - Nondiscrimination and Access to Equal Educational Opportunity, or Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities does not substantiate harassment based on one (1) or more of the Protected Classes, the complaint of bullying shall still be investigated under this Policy.

If the matter or complaint involves the District Administrator or a member of the Board, it is appropriate to engage outside legal counsel to conduct the investigation consistent with this policy. Legal counsel shall conduct a prompt investigation. The Board attorney is authorized to designate an outside third party to conduct the investigation. The Board attorney or designee will arrange such meetings as may be necessary with all concerned parties within five (5) business days after receipt of the information or complaint. The parties will have an opportunity to submit evidence and a list of witnesses. All findings related to the

complaint will be reduced to writing. The Board attorney or designee conducting the investigation shall notify the complainant and parents as appropriate (in writing) when the investigation is concluded and the findings are made.

Parents of each student involved in the bullying report will be notified prior to the conclusion of the investigation. The District shall maintain the confidentiality of the report and any related student records to the extent required by law.

If the investigation finds that bullying has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include student discipline including, but not limited to, reprimand, suspension, or possible expulsion. Further, the result of an investigation that finds that bullying has occurred may result in discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials. Student services staff will provide support for the identified victims.

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

Retaliation/False Reports

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of bullying is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as bullying. Making intentionally false reports about bullying for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliation and intentionally making a false report may result in disciplinary action as indicated above.

If a student or other individual believes there has been bullying, regardless of whether it fits a particular definition, they should report it and allow the administration to determine the appropriate course of action.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against who the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, inform parents, take appropriate action, and conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

To the extent appropriate in conducting a thorough investigation and/or as legally permitted, confidentiality will be maintained during the investigation process.

Notification

Notice of this policy will be annually distributed to all students enrolled in the School District and their parents through the student handbook. The policy will also be provided to organizations in the community having cooperative agreements with the schools. Additionally, the policy or a summary will be incorporated into the teacher handbooks.

The School District will also provide a copy of the policy to any person who requests it.

Records and Reports

Records of investigations will be maintained in accordance with Policy 8330 - Student Records and State law.

Records will be maintained on the number and types of reports made, and sanctions imposed for incidents found to be in violation of the bullying policy. An annual summary shall be prepared and presented to the Board, which includes trends in bullying behavior and recommendations on how to further reduce bullying behavior. The annual summary will be available to the public.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of bullying behavior. The District Administrator shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines on bullying will be age and content appropriate.

The Board is committed to providing an equal educational opportunity for all students in the District.

The Board does not discriminate on the basis of race, color, religion, national origin, ancestry, creed, pregnancy, marital status, parental status, sexual orientation, sex, (including gender status, change of sex or gender identity), or physical, mental, emotional, or learning disability (Protected Classes) in any of its student program and activities. This policy is intended to support and promote nondiscriminatory practices in all District and school activities, particularly in the following areas:

- A. use of objective bases for admission to any school, class, program, or activity;

- E. selection of instructional and library media materials in a nondiscriminatory manner and that reflect the cultural diversity and pluralistic nature of American society;
- F. design and implementation of student evaluation practices, materials, and tools, but not at the exclusion of implementing techniques to meet students' individual needs;
- G. design and configuration of facilities;
- H. opportunity for participation in extra-curricular and co-curricular activities provided that separate programs for male and female students may be available provided comparable activities are made available to all in terms of type, scope, and District support; and
- I. the school lunch program and other school-sponsored food service programs.

The Board is also committed to equal employment opportunity in its employment policies and practices as they relate to students. The Board's policies pertaining to employment practices can be found in Policy 1422, Policy 3122, and Policy 4122 - Nondiscrimination and Equal Employment Opportunity.

The District will identify, evaluate, and provide a free appropriate public education to students with disabilities who are determined eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973 (Section 504).

The District's educational programs include the academic and nonacademic setting. Each qualified student with a disability shall be educated with students without disabilities to the maximum extent appropriate. In the nonacademic setting, a student with a disability shall participate with students without disabilities to the maximum extent appropriate.

Notice of the Board's policy on nondiscrimination and the identity of the District's Compliance Officer(s) (see below) will be published on the District's website, posted throughout the District, and included in the District's recruitment statements or general information publications.

Principal's Responsibilities

Each Principal shall verify that the procedures used with students and parents for selection of and participation in any part of the District's academic, co-curricular, or extra-curricular programs do not discriminate on the basis of the Protected Classes.

District Administrator's Responsibilities

In furtherance of the aforesaid goal, the District Administrator or designee shall:

A. Curriculum Content

1. review current and proposed courses of study and textbooks to detect any bias based upon the Protected Classes ascertaining whether or not supplemental materials, singly or taken as a whole, fairly depict those Protected Classes toward the development of human society;
2. provide that necessary programs are available for students with limited use of the English language;

B. Staff Training

develop an ongoing program of staff training and in-service training for school personnel designed to identify and solve problems of bias based upon the Protected Classes in all aspects of the program;

C. Student Access

1. review current and proposed programs, activities, facilities, and practices to ensure that all students have equal access thereto and are not segregated on the basis of the Protected Classes in any duty, work, play, classroom, or school practice, except as may be permitted under State regulations;
2. verify that facilities are made available in a non-discriminatory fashion, in accordance with Board Policy 7510 - Use of District Facilities, for non-curricular student activities that are initiated by parents or other members of the community, including but not limited to any group officially affiliated with the Boy Scouts of America or any other youth group listed in Title 36 of the United States Code as a patriotic society;
3. verify that the educational programs of this District are accessible to all students;

All programs need to be designed and scheduled so the location or nature of the facility or area will not deny an otherwise qualified student with a disability the opportunity to participate in the academic or other school programs on the same basis as students without disabilities.

4. require that service animals for students who require this type of assistance shall be permitted access to all facilities, programs, and events of the District.

D. District Support

The Board is committed to educating (or providing for the education of) each qualified person with a disability with persons who are not disabled to the maximum extent appropriate. Generally, the District will place a person with a disability in the regular educational environment unless it is demonstrated that the education of the person in the regular environment, even with the use of supplementary aids and services cannot be achieved satisfactorily. Members of the District community, which includes students or Third Parties, who believe they have been discriminated/retaliated against are entitled to utilize the complaint process set forth below. Initiating a complaint, whether formally or informally, will not adversely affect the Complainant's employment or participation in educational or extra-curricular programs. While there are no time limits for initiating complaints under this policy, individuals should make every effort to file a complaint as soon as possible after the conduct occurs while the facts are known and potential witnesses are available.

If during an investigation of alleged bullying, aggressive behavior and/or harassment in accordance with Policy 5517.01 - Bullying, the Principal believes that the reported misconduct may constitute discrimination based on a Protected Class, the Principal shall report the act to one of the COs, who shall investigate the allegation in accordance with this policy. While the CO investigates the allegation, the Principal shall suspend the Policy 5517.01 investigation to await the CO's written report. The CO shall keep the principal informed of the status of the Policy 2260 investigation and provide the Principal with a copy of the resulting written report.

The COs will be available during regular school/work hours to discuss concerns related to discrimination/retaliation. COs shall accept reports of discrimination/retaliation directly from any member of the District community or a Third Party and reports that initially are made to another District employee. Upon receipt of a report of alleged discrimination/retaliation, the CO will contact the Complainant and begin either an informal or formal complaint process (depending on the Complainant's request and the nature of the alleged discrimination/retaliation) or designate a specific individual to conduct such a process.

The CO will provide a copy of this policy to the Complainant and the Respondent. In the case of a formal complaint, the CO will prepare recommendations for the District Administrator or oversee the preparation of such recommendations by a designee. All members of the District community must report incidents of discrimination/retaliation that are reported to them to the CO within two (2) days of learning of the incident/conduct.

Any District employee who directly observes discrimination/retaliation of a student is obligated, in accordance with this policy, to report such observations to one of the COs within two (2) days. Additionally, any District employee who observes an act of discrimination/retaliation is expected to intervene to stop the misconduct unless circumstances make such an intervention dangerous, in which case the staff member should immediately notify other District employees and/or local law enforcement officials, as necessary, to stop the misconduct. Thereafter, the CO/designee must contact the Complainant if age eighteen (18) or older or the Complainant's parents/guardians if the student is under the age of eighteen (18) within two (2) days to advise of the Board's intent to investigate the alleged wrongdoing.

The names, titles, and contact information of these individuals will be published annually:

- A. on the School District's website.
- B. in the staff and student handbooks.

A CO will be available during regular school/work hours to discuss concerns related to student discrimination in educational opportunities under this policy.

Investigation and Complaint Procedure

The CO shall investigate any complaints brought under this policy. Throughout the course of the process as described herein, the CO should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All complaints must include the following information to the extent known: a description of the alleged violation, the identity of the Respondent; a detailed description of the facts upon which the complaint is based (i.e., when, where, and what occurred); a list of potential witnesses; and the resolution sought by the Complainant.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the CO shall ask for such details in an oral interview. Thereafter the CO will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the reported charge by signing the document.

Upon receiving a complaint, the CO will consider whether any action should be taken during the investigatory phase to protect the Complainant from further loss of educational opportunity, including but not limited to a change of work assignment or class schedule for the Complainant, tentative enrollment in a program, or other appropriate action. In making such a determination, the CO should consult the

Complainant to assess whether the individual agrees with the proposed action. If the Complainant is unwilling to consent to the proposed change, the CO still may take whatever actions are deemed appropriate in consultation with the District Administrator.

As soon as appropriate in the investigation process, the CO will inform the Respondent, that a complaint has been received. The person(s) must also be provided an opportunity to respond to the complaint.

All investigations shall be commenced as soon as practicable upon receipt of a complaint and concluded as expeditiously as feasible, in consideration of the circumstances, while taking measures to complete a thorough investigation. The complaining party shall be notified in writing of receipt of the complaint within forty-five (45) days of the complaint and shall reach a determination concerning the complaint within ninety (90) days of receipt unless additional time is agreed to by the complaining party.

The investigation will include:

- A. interviews with the Complainant;
- B. interviews with the Respondent;
- C. interviews with any other witnesses who reasonably may be expected to have any information relevant to the allegations, as determined by the CO;
- D. consideration of any documentation or other evidence presented by the Complainant, Respondent, or any other witness which is reasonably believed to be relevant to the allegations, as determined by the CO.

At the conclusion of the investigation, the CO or designee shall prepare and deliver a written report to the District Administrator which summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definitions in this Policy, as well as in State and Federal law as to whether the Complainant has been denied access to educational opportunities on the basis of one of the protected classifications, based on a preponderance of evidence standard. The CO's recommendations must be based upon the totality of the circumstances, including the ages and maturity levels of those involved.

The CO may consult with the Board's attorney during the course of the investigatory process and/or before finalizing the report to the District Administrator.

In cases where no District CO is able to investigate a complaint due to concerns regarding conflicts, bias or partiality, or for other reasons that impair the CO's ability to conduct an investigation, the CO may in consultation with the District Administrator or Board President, if the matter involves the District Administrator, engage outside legal counsel to conduct the investigation consistent with this policy.

Absent extenuating circumstances, within five (5) days of receiving the report of the CO or designee, the District Administrator either must issue a written decision regarding whether the charges have been substantiated or request further investigation. A copy of the District Administrator's final decision will be delivered to both the Complainant and Respondent. The District Administrator may redact information from the decision in the event the release of information raises concerns regarding the integrity of the complaint or investigation process. The Board authorizes the District Administrator to consult with legal counsel to determine the extent to which information in an investigation report must be provided to either

the Complainant or Respondent.

If the District Administrator requests additional investigation, the District Administrator must specify the additional information that is to be gathered, and such additional investigation must be completed within five (5) days. At the conclusion of the additional investigation, the District Administrator must issue a final written decision as described above. The decision of the District Administrator will be reviewed by the Board upon request.

If the Complainant feels that the decision does not adequately address the complaint s/he may appeal the decision to the State Superintendent of Public Instruction by submitting a written request to the Wisconsin Department of Public Instruction, Pupil Nondiscrimination Program, or by contacting the DPI Pupil Nondiscrimination Program at (608) 267-9157. Any person, including the Respondent in a complaint, who is subject to disciplinary action up to and including termination as a result of a complaint may choose to file a grievance utilizing the District's grievance procedure as outlined in Policy 3340 or Policy 4340.

The Board reserves the right to investigate and resolve a complaint or report regardless of whether the member of the School District community or third party chooses to pursue the complaint. The Board also reserves the right to have the complaint investigation conducted by an external person in accordance with this policy or in such other manner as deemed appropriate by the Board.

The parties may be represented, at their own cost, at any of the above-described meetings/hearings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the Office for Civil Rights, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Additional School District Action

If the evidence suggests that any conduct at issue violates any other policies of the Board, is a crime, or requires mandatory reporting under the Children's Code (Sec. 48.981, Wis. Stat.) (Policy 8462), or threats of violence (Policy 8462.01), the CO or District Administrator shall take such additional actions as necessary and appropriate under the circumstances, which may include a report to the appropriate social service and/or law enforcement agency charged with responsibility for handling such investigations.

Privacy/Confidentiality

The District will make reasonable efforts to protect the privacy of any individuals involved in the investigation process. Confidentiality cannot be guaranteed, however. Additionally, the Respondent must be provided the Complainant's identity.

During the course of an investigation, the CO or designee will instruct all members of the School District community and third parties who are interviewed about the importance of maintaining confidentiality. Any individual who is interviewed as part of an investigation is expected not to disclose any information that is learned or provided during the course of the investigation.

Remedial Action and Monitoring

If warranted, appropriate remedial action shall be determined and implemented on behalf of the

Complainant, including but not limited to counseling services, reinstatement of leave taken because of the discrimination, the opportunity to complete assignments missed due to absences related to the discrimination, or other appropriate action.

The Board may appoint an individual, who may be a District employee, to follow up with the Complainant to ensure no further discrimination or retaliation has occurred and to take action to address any reported occurrences promptly.

Sanctions and Disciplinary Action

The Board shall vigorously enforce its prohibitions against discrimination/retaliation by taking appropriate action reasonably calculated to stop and prevent further misconduct.

While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State law and the terms of any relevant codes of conduct.

When imposing discipline, the District Administrator shall consider the totality of the circumstances involved in the matter, including the ages and maturity level of any student involved. In those cases where discrimination/retaliation is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies.

Where the Board becomes aware that a prior disciplinary action has been taken against the Respondent, all subsequent sanctions imposed by the Board and/or District Administrator shall be reasonably calculated to end such conduct, prevent its reoccurrence, and remedy its effects.

Retaliation

Retaliation against a person who makes a report or files a complaint alleging harassment/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made by any Federal or State civil rights law, or because that individual made a report, formal complaint, testified, assisted or participated or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person for making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in the imposition of disciplinary sanctions/consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of discriminatory practices. The District Administrator shall provide appropriate information to all members of the School District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training, as well as all information, provided regarding the Board's policy and discrimination in general, will be age and content appropriate.

Retention of Investigatory Records and Materials

The Compliance Officer(s) is responsible for overseeing retention of all records that must be maintained pursuant to this policy. All individuals charged with conducting investigations under this policy shall retain all information, documents, electronically stored information ("ESI"), and electronic media (as defined in Policy 8315) created and received as part of an investigation, including but not limited to:

- A. all written reports/allegations/complaints/statements;
- B. narratives of all verbal reports, allegations, complaints, and statements collected;

- M. documentation of all actions, both individual and systemic, taken to stop the discrimination or harassment, prevent its recurrence, eliminate any hostile environment, and remedy its discriminatory effects.

- N. copies of the Board policy and/or procedures/guidelines used by the District to conduct the investigation, and any documents used by the District at the time of the alleged violation to communicate the Board's expectations to students and staff with respect to the subject of this policy (e.g., Student Code of Conduct and/or Employee Handbooks);
- O. copies of any documentation that memorializes any formal or informal resolutions to the alleged discrimination or harassment;
- P. documentation of any training provided to District personnel related to this policy, including but not limited to, notification of the prohibitions and expectations of staff set forth in this policy and the role and responsibility of all District personnel involved in enforcing this policy, including their duty to report alleged violations of this policy and/or conducting an investigation of an alleged violation of this policy.

The information, documents, ESI, and electronic media (as defined in Policy 8315) retained may include public records and records exempt from disclosure under Federal and/or State law (e.g., student records).

The information, documents, ESI, and electronic media (as defined in Policy 8315) created or received as part of an investigation shall be retained in accordance with Policy 8310, Policy 8315, Policy 8320, Policy 8330 for not less than three (3) years, but longer if required by the District's records retention schedule.

SECTION 504/ADA PROHIBITION AGAINST DISCRIMINATION BASED ON DISABILITY POLICY 2260.01

Pursuant to Section 504 of the Rehabilitation Act of 1973 ("Section 504"), the Americans with Disabilities Act of 1990, as amended ("ADA"), and the implementing regulations (collectively "Section 504/ADA"), no otherwise qualified individual with a disability shall be excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity receiving Federal financial assistance solely by reason of disability. The Board does not discriminate in admission or access to, participation in, treatment in its programs or activities. As such, the Board's policies and practices will not discriminate against students with disabilities and the Board will make its facilities, programs, and activities accessible to qualified individuals with disabilities. No discrimination will be knowingly permitted against any individual with a disability on the sole basis of that disability in any of the programs, activities, policies, and/or practices in the District.

Notice of the Board's policy on nondiscrimination in employment practices and the identity of the School District's Compliance Officer(s) (see below) will be published on the District's website, posted throughout the District, and included in the District's recruitment statements or general information publications.

Free Appropriate Public Education

The Board is committed to identifying, evaluating, and providing a free appropriate public education ("FAPE") to students with disabilities within its jurisdiction who are determined eligible for special education and related services under the Individuals with Disabilities Education Act ("IDEA") or Section 504, regardless of the nature or severity of their disabilities.

If a student has a physical or mental impairment that significantly limits one or more major life activities (see Definitions below), the Board shall provide the student a FAPE. An appropriate education may include regular or special education and related aids and services to accommodate the unique needs of students

with disabilities. For students with disabilities who are not eligible for specially designed instruction under the IDEA, the related aids and services (including accommodations/modifications/interventions) they need in order to have their needs met as adequately as the needs of students without disabilities are met shall be delineated, along with their placement, in a Section 504 Plan (Form 2260.01A F13).

Parents/guardians/custodians ("parents") are invited and encouraged to participate fully in the evaluation process and development of a Section 504 Plan. The quality of education services provided to students with disabilities shall be equal to the quality of services provided to students without disabilities.

The Board is committed to educating (or providing for the education of) each qualified student with a disability within its jurisdiction with students without disabilities to the maximum extent appropriate. Generally, the District will place a student with a disability in the general education environment unless it is demonstrated that the education of the student in the general education environment, even with the use of supplementary aids and services, cannot be achieved satisfactorily. If the District places a student in a setting other than the general education environment, it shall take into account the proximity of the alternate setting to the student's home. If the Board operates a separate class or facility that is identified as being provided for students with disabilities, the facility, program, and activities and services must be comparable to the facilities, programs, and activities and services offered to students without disabilities.

The District will provide non-academic extra-curricular services and activities in such a manner as is necessary to afford qualified students with disabilities an equal opportunity for participation in such services and activities. Nonacademic and extra-curricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interests groups or clubs sponsored by the District, referrals to agencies that provide assistance to individuals with disabilities, and employment of students. In providing or arranging for the provision of meals and recess periods and nonacademic and extracurricular services and activities, including those listed above, the District will verify that students with disabilities participate with students without disabilities in such services and activities to the maximum extent appropriate.

In accordance with Section 504, parents and students shall be notified of their right to file an internal complaint regarding an alleged violation, misinterpretation, or misapplication of Section 504. In addition, students and their parents shall be notified of their right to file a complaint with the U.S. Department of Education's Office for Civil Rights ("OCR"). Finally, students and parents shall be advised of their right to request a due process hearing before an Impartial Hearing Officer ("IHO") regarding the identification, evaluation, or educational placement of persons with disabilities, and their right to examine relevant education records.

Definitions

Words used in this policy shall have those meanings defined herein; words not defined herein shall be construed according to their plain and ordinary meanings.

Complainant: is the individual who alleges or is alleged to have been subjected to discrimination/retaliation, regardless of whether the person files a formal complaint or is pursuing an informal resolution to the alleged discrimination/retaliation.

Respondent: is the individual who is alleged to have engaged in discrimination/retaliation, regardless of whether the Complainant files a formal complaint or is seeking an informal resolution to the alleged discrimination/retaliation.

District community: means students, District employees (i.e., administrators and professional and support staff), and Board members, agents, volunteers, contractors, or other persons subject to the control and supervision of the Board.

Third Parties: include but are not limited to guests and/or visitors on District property (e.g., visiting speakers, participants on opposing athletic teams, parents), vendors doing business with or seeking to do business with the Board, and other individuals who come in contact with members of the District community at school-related events/activities (whether on or off District property).

Day(s): Unless expressly stated otherwise, the term “day” or “days” as used in this policy means business day(s) (i.e., a day(s) that the District office is open for normal operating hours, Monday – Friday, excluding State-recognized holidays).

Individual with a disability means a person who has, has a record of, or is regarded as having, a physical or mental impairment that substantially limits one or more major life activities.

Major Life Activities

Major life activities are functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, eating, sleeping, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, sitting, reaching, interacting with others, and working.

Major life activities also include the operation of a major bodily function, including, but not limited to, functions of the immune system, special sense organs and skin, normal cell growth, and digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, hemic, lymphatic, musculoskeletal and reproductive functions. The operation of a major bodily function includes the operation of an individual organ within a body system.

Impairment That Substantially Limits a Major Life Activity

The determination of whether an impairment substantially limits a major life activity must be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, equipment or appliances, low-vision devices (not including ordinary eyeglasses or contact lenses), prosthetics (including limbs and devices), hearing aids and cochlear implants or other implantable hearing devices, mobility devices, oxygen therapy equipment or supplies, assistive technology, reasonable accommodations or auxiliary aids or services, or learned behavioral or adaptive neurological modifications.

An impairment that is episodic in nature or in remission is considered a disability if it would substantially limit a major life activity when active.

Qualified Individual with a Disability

With respect to public preschool, elementary, and secondary educational services, a qualified individual with a disability means a student with a disability:

- A. who is of an age during which persons without disabilities are provided educational services;
- B. who is of any age during which it is mandatory under Wisconsin law to provide educational services to persons with disabilities; or

C. to whom the State is required to provide a free appropriate public education pursuant to the IDEA.

With respect to vocational education services, a qualified individual with a disability means a student with a disability who meets the academic and technical standards requisite to admission or participation in the vocational program or activity. The Board will not deny a student with disability access to its vocational education programs or courses due to architectural and/or equipment barriers, or because the student needs related aids or services to receive an appropriate education.

With respect to employment, a qualified individual with a disability means the individual satisfies the requisite skill, experience, education and other job-related requirements of the employment position the individual holds or desires and can perform the essential functions of the job in question, with or without reasonable accommodation.

Reasonable Accommodation

With respect to employment, the Board will provide a reasonable accommodation to a qualified individual who has an actual disability or who has a record of a disability, unless the accommodation would impose an undue hardship on the operation of the Board's program and/or activities. A reasonable accommodation is not required for an individual who is merely regarded as having a disability.

Facilities

No qualified person with a disability will be denied the benefits of, excluded from participation in, or otherwise subjected to discrimination under any program or activity to which Section 504/ADA applies because the District's facilities are inaccessible to or unusable by persons with disabilities.

For facilities constructed or altered after June 3, 1977, the District will comply with applicable accessibility standards. For those existing facilities constructed prior to June 3, 1977, the District is committed to operating its programs and activities so that they are readily accessible to persons with disabilities.

The following person(s) is/are designated as the District Section 504 Compliance Officer(s)/ADA Coordinator(s):

Carly Hertel
Director of Human Resources
915 Summit Ave.
Oconomowoc, WI 53066

262-560-2151
hertelc@oasd.org

The name(s), title(s), and contact information of this/these individual(s) will be published annually:

- A. on the School District's website.
- B. in the staff and student handbooks

The COs are responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding discrimination/retaliation or denial of equal access. The COs also shall verify that proper notice of nondiscrimination for Title II of the Americans with Disabilities Act (as amended), Title VI and Title VII of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973 (as amended), and the Age Discrimination in Employment Act of 1975 is provided to staff members and the general public. A copy of each of the Acts and regulations on which this notice is based will be made available upon request from the CO.

The Board will provide for the prompt and equitable resolution of complaints alleging violations of Section 504/ADA. (See below.) The Board further will establish and implement a system of procedural safeguards in accordance with Section 504, including the right to an impartial due process hearing, for parents of students with disabilities. Finally, students and parents will be advised of their right to request a due process hearing before an Impartial Hearing Officer (IHO) regarding the identification, evaluation or educational placement of persons with disabilities, including the right to participation by the student's parents and representation of counsel, and their right to examine relevant education records.

Reports and Complaints of Discrimination and Retaliation

Students and District employees are required, and all other members of the District community and Third Parties are encouraged, to promptly report incidents of discrimination and/or retaliation to an administrator, supervisor, or other District official so that the Board may address the conduct. Any teacher, administrator, supervisor, or other District employee or official who receives such a complaint shall file it with the CO within two (2) days.

Members of the District community, which includes students or Third Parties, who believe they have been discriminated/retaliated against are entitled to utilize the complaint process set forth below. Initiating a complaint, whether formally or informally, will not adversely affect the Complainant's employment or participation in educational or extra-curricular programs. While there are no time limits for initiating complaints under this policy, individuals should make every effort to file a complaint as soon as possible after the conduct occurs while the facts are known and potential witnesses are available.

A student and/or parent may initiate the internal complaint procedure when they believe that a violation, misapplication or misinterpretation of Section 504 has occurred. Additionally, the following procedure may be used for any disagreement with respect to actions regarding the identification, evaluation, or educational program or placement of students who are identified as having a disability or believed to have a disability pursuant to Section 504 and are not eligible under the IDEA, except in the case of disciplinary actions where the provisions of the Student Code of Conduct apply. Use of the internal complaint procedure is not a prerequisite to the pursuit of other remedies, including the filing of a complaint with the OCR or requesting an impartial due process hearing.

If during an investigation of alleged bullying, aggressive behavior and/or harassment in accordance with Policy 5517.01 - Bullying, the Principal believes that the reported misconduct may constitute discrimination based on a Protected Class, the Principal shall report the act to one of the COs, who shall investigate the allegation in accordance with this policy. While the CO investigates the allegation, the Principal shall suspend the Policy 5517.01 investigation to await the CO's written report. The CO shall keep the Principal informed of the status of the Policy 2260 investigation and provide the Principal with a copy of the resulting written report.

The COs will be available during regular school/work hours to discuss concerns related to discrimination/retaliation. COs shall accept reports of discrimination/retaliation directly from any member of the District community or a Third Party and reports that initially are made to another District employee. Upon receipt of a report of alleged discrimination/retaliation, the CO will contact the Complainant and begin either an informal or formal complaint process (depending on the Complainant's request and the nature of the alleged discrimination/retaliation) or designate a specific individual to conduct such a process.

The CO will provide a copy of this policy to the Complainant and the Respondent. In the case of a formal complaint, the CO will prepare recommendations for the District Administrator or oversee the preparation of such recommendations by a designee. All members of the District community must report incidents of discrimination/retaliation that are reported to them to the CO within two (2) days of learning of the incident/conduct.

Any District employee who directly observes discrimination/retaliation of a student is obligated, in accordance with this policy, to report such observations to one of the COs within two (2) days. Additionally, any District employee who observes an act of discrimination/retaliation is expected to intervene to stop the misconduct unless circumstances make such an intervention dangerous, in which case the staff member should immediately notify other District employees and/or local law enforcement officials, as necessary, to stop the misconduct. Thereafter, the CO/designee must contact the Complainant if age eighteen (18) or older or the Complainant's parents/guardians if the student is under the age eighteen (18) within two (2) days to advise of the Board's intent to investigate the alleged wrongdoing.

Investigation and Complaint Procedure

The CO shall investigate any complaints brought under this policy. Throughout the course of the process as described herein, the CO should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All complaints must include the following information to the extent known: a description of the alleged violation, the identity of the Respondent; a detailed description of the facts upon which the complaint is based (i.e., when, where, and what occurred); a list of potential witnesses; and the resolution sought by the Complainant.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the CO shall ask for such details in an oral interview. Thereafter the CO will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the report by signing the document.

Upon receiving a complaint, the CO will consider whether any action should be taken during the investigatory phase to protect the Complainant from further discrimination or retaliation, including but not limited to a change of work assignment or class schedule for the Complainant and/or the Respondent. In

making such a determination, the CO should consult the Complainant to assess whether the individual agrees with the proposed action. If the Complainant is unwilling to consent to the proposed change, the CO still may take whatever actions are deemed appropriate in consultation with the District Administrator.

As soon as appropriate in the investigation process, the CO will inform any individual named by the Complainant in connection with an alleged violation of this policy, that a complaint has been received. The person(s) must also be provided an opportunity to respond to the complaint.

Within two (2) days of receiving the complaint, the CO or designee will initiate an investigation by at a minimum confirming receipt of the complaint with the Complainant and informing the Complainant of the investigation process.

Investigations shall be completed promptly. What constitutes promptness will depend on the complexity of the issues, the number of incidents or factual elements, the number of witnesses and documents to be consulted, and the availability of witnesses and other evidence. The CO shall keep the Complainant reasonably informed of the investigation's progress. The investigation will include:

- A. interview(s) with the Complainant;
- B. interview(s) with the Respondent;
- C. interviews with any other witnesses who reasonably may be expected to have any information relevant to the allegations, as determined by the CO;
- D. consideration of any documentation or other information presented by the Complainant, Respondent, or any other witness which is reasonably believed to be relevant to the allegations, as determined by the CO.

At the conclusion of the investigation, the CO or the designee shall prepare and deliver a written report to the District Administrator which summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definition of discrimination/retaliation as provided in Board policy and State and Federal law as to whether the Respondent has engaged in harassment/retaliation of the Complainant. The CO's recommendations must be based upon the totality of the circumstances. In determining if discrimination or retaliation occurred, a preponderance of evidence standard will be used.

The CO may consult with the Board's attorney during the course of the investigatory process and/or before finalizing the report to the District Administrator.

In cases where no District CO is able to investigate a complaint due to concerns regarding conflicts, bias or partiality, or for other reasons that impair the CO's ability to conduct an investigation, the CO may in consultation with the District Administrator or Board President, if the matter involves the District Administrator, engage outside legal counsel to conduct the investigation consistent with this policy.

Absent extenuating circumstances, within five (5) days of receiving the report of the CO or designee, the District Administrator must either issue a final decision regarding whether the charges have been substantiated or request further investigation. A copy of the District Administrator's final decision will be delivered to the Complainant and to the Respondent. The District Administrator may redact information from the decision in the event the release of information raises concerns regarding the integrity of the complaint or investigation process. The Board authorizes the District Administrator to consult with legal

counsel to determine the extent to which information in an investigation report must be provided to either the Complainant or Respondent.

If the District Administrator requests additional investigation, the District Administrator must specify the additional information that is to be gathered, and such additional investigation must be completed within five (5) days. At the conclusion of the additional investigation, the District Administrator must issue a final written decision as described above. The decision of the District Administrator will be reviewed by the Board upon request.

If the Complainant feels that the decision does not adequately address the complaint s/he may appeal the decision to the State Superintendent of Public Instruction.

The Board reserves the right to investigate and resolve a complaint or report of discrimination/retaliation regardless of whether the Complainant pursues the complaint. The Board also reserves the right to have the complaint investigation conducted by an external person in accordance with this policy, or in such other manner as deemed appropriate by the Board or its designee.

The parties may be represented, at their own cost, at any of the above-described interviews/meetings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the OCR or ICRC, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Additional School District Action

If the evidence suggests that any conduct at issue violates any other policies of the Board, is a crime, or requires mandatory reporting under the Children's Code (Sec. 48.981, Wis. Stat.), the CO or District Administrator shall take additional such actions as necessary and appropriate under the circumstances, which may include a report to the appropriate social service and/or law enforcement agency charged with responsibility for handling such investigations.

Privacy/Confidentiality

The District will employ all reasonable efforts to protect the rights of the Complainant, the Respondent(s), and the witnesses as much as possible, consistent with the District's legal obligations to investigate, take appropriate action, and comply with any discovery or disclosure obligations. Confidentiality cannot be guaranteed, however. All Complainants proceeding through the investigation process should be advised that as a result of the investigation, allegations against individuals may become known to those individuals, including the Complainant's identity.

All records generated under the terms of this policy shall be maintained as confidential to the extent permitted by law. Confidentiality, however, cannot be guaranteed. Additionally, the Respondent must be provided the Complainant's identity.

During the course of an investigation, the CO or designee will instruct each person who is interviewed about the importance of maintaining confidentiality. Any individual who is interviewed as part of an investigation is expected not to disclose to third parties any information that is learned or provided during the course of the investigation.

Remedial Action and Monitoring

If warranted, appropriate remedial action shall be determined and implemented on behalf of the Complainant, including but not limited to counseling services, reinstatement of leave taken due to the discrimination, the opportunity to complete assignments missed due to absences related to the discrimination, or other appropriate action.

The Board may appoint an individual, who may be a District employee, to follow up with the Complainant to ensure no further discrimination or retaliation has occurred and to take action to address any reported occurrences promptly.

Sanctions and Disciplinary Action

The Board shall vigorously enforce its prohibitions against discrimination by taking appropriate action reasonably calculated to stop and prevent further misconduct.

While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State law and the terms of any relevant code of conduct.

When imposing discipline, the District Administrator shall consider the totality of the circumstances involved in the matter, including the age and maturity level of any student involved. In those cases where discrimination/retaliation is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies.

Where the Board becomes aware that a prior disciplinary action has been taken against the Respondent, all subsequent sanctions imposed by the Board and/or District Administrator shall be reasonably calculated to end such conduct, prevent its recurrence, and remedy its effect.

Impartial Due Process Hearing

A student and/or parent may request an impartial due process hearing regarding the identification, evaluation, or placement of a student with a disability. The student and/or parent may but are not required to first exhaust the above complaint procedure before requesting an impartial due process hearing. The parent of a student with a disability and a student over eighteen (18) years old (if not under guardianship) or an emancipated student has the right to: (1) examine records or documents that the school relied on in making its decision about the student; (2) request an impartial due process hearing that provides the parent and/or student with an opportunity to participate and permits representation by an attorney; and (3) have an opportunity for review of the decision made at the hearing.

A request for an impartial due process hearing should be made as soon as possible following a dispute in order to ensure that witnesses are available but no more than two years following the date of the matter in dispute. A request for an impartial due process hearing must be put in writing, identify the specific circumstances or areas of dispute that have given rise to the request for a hearing, and offer possible solutions to the dispute. The request for due process hearing must be filed with a District CO within the time limits specified above. The CO is available to assist individuals in filing a request for an impartial due process hearing.

When a request for an impartial due process hearing is received, the aggrieved party will have the

opportunity to receive a hearing conducted by an IHO (i.e., by a person not employed by the District, not involved in the education or care of the child, and not having a personal or professional interest that would conflict with the IHO's objectivity in the hearing). The District will maintain a list of trained IHOs that may include IDEA/Article 7 hearing officers, attorneys, and Directors of Special Education outside the District. The District CO will appoint an IHO from that list, and the District will bear the costs of the hearing. The appointment of an IHO will be made within fifteen (15) days after the request for an impartial due process hearing is received.

A party to an impartial due process hearing has the right to:

- A. be accompanied and advised by legal counsel and individuals with special knowledge or training with respect to the problems of students with disabilities at the party's own cost;
- B. present evidence and confront, cross-examine and compel the attendance of witnesses;
- C. a written or electronic verbatim record of the hearing; and
- D. written findings of fact and conclusions of law setting forth the reasons for the decision.

The IHO shall conduct the impartial due process hearing within a reasonable period of time (i.e., not to exceed ninety (90) days from the request for a hearing, unless this time-frame is mutually waived by the parties or is determined by the IHO to be impossible to comply with due to extenuating circumstances). The IHO will give the parent and/or student written notice of the date, time and place of the hearing. Notice will be given no less than twenty-one (21) days prior to the date of the hearing, unless otherwise agreed to by the parent and/or student. The notice shall include:

- A. a statement of the time, place and nature of the hearing;
- B. a statement of the legal authority and jurisdiction under which the hearing is being held;
- C. a reference to the particular section(s) of the statutes and rules involved;
- D. a statement of the availability of relevant records for examination;
- E. a short and plain statement of the matters asserted; and
- F. a statement of the right to be represented by counsel.

The IHO shall conduct the hearing in a manner that will afford all parties a full and fair opportunity to present evidence and otherwise to be heard. The parent and/or student may be represented by another person of the parent or student's choice, including an attorney. The IHO shall make a full and complete record of the proceedings.

The IHO shall render a decision in writing to the parties within thirty (30) days following the conclusion of the hearing. The decision will be based solely on the testimony and demonstrative evidence presented at the hearing and include a summary of the evidence (i.e., findings of fact) and the reason for the decision (conclusions of law). The IHO's decision shall include a statement that either party may appeal the decision.

Appeal of the IHO's decision may be made to a Federal court of competent jurisdiction.

OCR Complaint

At any time, if a student or parent believes that the student has been subjected to discrimination based upon disability in violation of Section 504 or the ADA, the student or parent may file a complaint with the OCR. The OCR can be reached at:

Retaliation

Retaliation against a person who makes a report or files a complaint alleging discrimination/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made by any Federal or State civil rights law, made a report/formal complaint, testified, assisted or participated, or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person for making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in imposition of disciplinary sanctions/consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of discriminatory practices. The District Administrator shall provide appropriate information to all members of the District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training and information provided regarding the Board's policy and discrimination in general will be age and content appropriate.

WELLNESS POLICY 8510

As required by law, the Board establishes the following wellness policy for the Oconomowoc Area School District as a part of a comprehensive wellness initiative.

Policy Preamble

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research suggests that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

Schools alone, however, cannot develop in students healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition choices to:

- A. promote nutrition education with the objective of improving students' health and reducing childhood obesity;
- B. improve the health and well-being of our children, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits;
- C. promote nutrition guidelines, a healthy eating environment, child nutrition programs, and food safety and security on each school campus with the objective of promoting student health and reducing childhood obesity;
- D. provide opportunities for every student to develop the knowledge and skills for specific physical activities, maintain physical fitness, regularly participate in physical activity, and understand the short and long-term benefits of a physically active lifestyle;
- E. promote the health and wellness of students and staff through other school based activities.

A student must be properly registered and a copy of such registration must be filed with the principal. The supervisor of the religious instruction must report monthly to the District the names of the students who are attending the weekly instruction.

The District will assume no liability for a student while attending religious instruction nor will it provide transportation for such instruction.

No solicitation for attendance at religious instruction shall be permitted on District premises. No member of the staff shall encourage nor discourage participation in any religious instruction program.

PERSONAL COMMUNICATION DEVICES, TECHNOLOGY RESOURCES AND OTHER ELECTRONIC EQUIPMENT 5136

While in some instances the possession and use of personal communication devices, technology resources (as defined in Bylaw 0100) and other electronic equipment or devices by a student at school may be appropriate, the possession and use of such technology resources and other equipment or devices by students at school may also have the effect of distracting, disrupting and/or intimidating others in the school environment and leading to opportunities for academic dishonesty and other disruptions of the educational process.

Students who are issued electronic devices by the District will abide by the terms of the Acceptable Use Policy. Use of personal devices on school property is permitted, provided that the student abides by the terms of this same policy to which the student has indicated agreement by his/her signature.

Students may use personal communication devices, technology resources, and other electronic equipment only as permitted under this policy.

Building principals are authorized to establish school rules for limited, non-disruptive use of electronic devices during the school day in the school building or during school activities for safety, medical, vocational or other legitimate reasons.

Electronic communication devices shall not be used:

- A. In areas where one would reasonably expect privacy, for example locker rooms or bathrooms.

- B. To communicate test answers, photograph tests, or engage in any other dishonest conduct in the academic setting.
- C. To share or post personal information about, or images of, any other student or staff member without permission from that student or staff member.
- D. To engage in bullying such as placing cell phone calls or sending text messages that ridicule, threaten or harass another student.
- E. To take, disseminate, transfer or share obscene, pornographic, lewd, inappropriate or illegal images or photographs.

Nothing within this policy shall be construed to limit a student's ability to use an electronic device in a manner that functions as assistive technology necessary for a student's education and that is required under an individualized education plan or a Section 504 plan.

Possession of an electronic communication device by a student is a privilege, which may be forfeited by any student who fails to abide by the terms of this policy, or otherwise engages in misuse of this privilege.

Failure to follow the procedures and prohibitions listed in the Acceptable Use Policy may result in the loss of the right to mobile technology devices, loss of access to network resources, and/or device confiscation.

Students engaging in the inappropriate use of electronic communication devices while on school premises or participating in school activities are subject to disciplinary action. The inappropriate use of such devices by students while off campus and not engaging in school activities may also be subject to disciplinary action if such conduct endangers the health, safety or property of others at school or under the supervision of school authorities and/or causes a material and substantial disruption to the school environment or school activities.

Students may use personal communication devices, technology resources and other electronic equipment/devices during instructional time for an educational or instructional purpose (e.g. taking notes, recording a class lecture, writing papers) with the teacher's permission and supervision, and may use these technology resources and other electronic equipment during non-instructional time, provided such use is consistent with the Policy 7540.03 Student Acceptable Use and Safety. Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property. Possession of a PCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Students are prohibited from using technology resources and other electronic equipment or devices in a manner that may be physically harmful to another person (e.g. shining a laser in the eyes of another student). Further, at no time may any technology resources or other electronic equipment/device be utilized by a student in a way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed, or intimidated. See Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using technology resources, a camera, or other electronic equipment/device to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, national origin, sex (including transgender identity, sexual orientation, and gender identity), age, disability, religion, or political beliefs; and (2) send, share, view or possess pictures, text

messages, e-mails or other materials of a sexual nature (i.e., sexting) in electronic or any other form. Violation of these prohibitions shall result in disciplinary action.

Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are prohibited from using technology resources and other electronic equipment/devices to capture, record, or transmit test information or any other information in a manner constituting fraud, theft, or academic dishonesty. Similarly, students are prohibited from using technology resources and other electronic equipment and devices to capture, record, or transmit the words (i.e. audio) and/or images (i.e. pictures/video) of any student, staff member or other person in the school or while attending a school-related activity, without express prior notice and explicit consent for the capture and/or recording of such words or images. Using technology resources or other electronic equipment/devices to capture, record, or transmit audio and/or pictures/video of an individual without his/her consent is considered an invasion of privacy and is not permitted unless authorized by the building principal. Technology resources and other electronic equipment/devices are expressly banned from and may not be possessed, activated, or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include but are not limited to locker rooms, shower facilities, restrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The building principal has authority to make determinations as to other specific locations and situations where possession of a camera or other electronic equipment/device is absolutely prohibited.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. Unauthorized technology resources and other electronic equipment and devices will be confiscated from the student by school personnel and disciplinary action taken.

Any technology resources or other electronic equipment/device confiscated by District staff will be marked in a removable manner with the student's name and held in a secure location until it is retrieved by the parent/guardian. Technology resources or other electronic equipment/devices in District custody will not be searched or otherwise tampered with unless school officials reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules (e.g. a student is observed using a camera in a prohibited area). Any search will be conducted in accordance with Policy 5771 – Search and Seizure.

Students are personally and solely responsible for the care and security of any technology resources and other electronic equipment or devices they bring to school. The Board assumes no responsibility for theft, loss, damage, or vandalism to electronic equipment and devices brought onto its property, or the unauthorized use of such devices.

EARLY COLLEGE CREDIT PROGRAM POLICY 2271

The Board recognizes the value to students and to the District of students participating in programs offered by University of Wisconsin system institutions, tribally controlled colleges and private, non-profit higher education institutions in Wisconsin.

The Board will allow any high school student who satisfies the eligibility requirements to participate in the Early College Credit Program (ECCP) to enroll in an approved course at an ECCP-approved institution of higher education while attending in the District. Students will be eligible to receive college and high school credit for completing course(s) at authorized institutions of higher education provided they complete the course(s) and receive a passing grade.

The School District's responsibility to pay for tuition, fees, books, and other necessary materials shall be limited to eighteen (18) postsecondary credits per student.

The District Administrator or designee shall establish administrative guidelines to ensure that the District's Early College Credit Program comports with applicable State law and the administrative rules of the Department of Public Instruction. The District Administrator shall also ensure that all students enrolled in the District in the 8th, 9th, 10th, and 11th grades are provided with information regarding the Program by October 1st of each year.

START COLLEGE NOW PROGRAM POLICY 2271.01

The District will permit resident high school students who have completed the 10th grade and who meet eligibility criteria, to take courses at a technical college in the Wisconsin Technical College System for the purpose of earning both high school and postsecondary credit. Students who wish to attend a technical college under this policy must request attendance and, if the student is a minor, must provide written approval from the student's parent. Students must request such attendance from the student's resident school district if attending the District as a non-resident.

General Eligibility Criteria for Students that Have Completed the 10th Grade:

To be eligible to attend courses at a technical college pursuant to this policy, a student:

- A. must be in good academic standing;
- B. must provide written notification to the board of the school district in which the student resides of his/her intent to attend a technical college under this subsection by March 1st if the student intends to enroll in the fall semester, and by October 1st if the student intends to enroll in the spring semester;
- C. must not be identified as a child-at-risk, pursuant to Policy 5461;
- D. must not be ineligible for participation for having failed a previous class under either this program or the Early College Credit Program (Policy 2271) and failing to reimburse the Board for any costs the student is required to pay; and
- E. must be admitted to the technical college for attendance.

Undue Financial Hardship

The Board may prohibit a student's attendance if the student is a child with a disability and the Board determines that the cost to the School District of any required additional special services for participation in this program would impose an undue financial burden on the District.

Tuition Payments for Technical College Attendance

The District shall pay to the technical college the cost of a student's tuition for attendance, including any additional costs associated with a student's special services, if applicable, if attendance is permitted, except as follows:

- A. For any course that the Board determines does not meet high school graduation requirements or the Board determines the District provides a comparable course. The student may appeal an adverse decision to the Department of Public Instruction. The Board shall notify the student no less than thirty (30) days prior to the start date of the proposed course if it finds that the course either does not meet high school graduation requirements or is comparable to a course offered in the District.
- B. The student has already completed eighteen (18) postsecondary semester credits.

Transportation Expenses

The District is not responsible for transporting a student attending a technical college under this policy to or from the technical college that the student is attending.

Reimbursement for Course Failing Grade

If a student receives a failing grade in a course or fails to complete a course, at a technical college for which the Board has made payment, the student's parent or guardian, or the student if s/he is an adult, may be required by the Board to reimburse the Board the amount paid on the student's behalf to the extent permitted by law to do so. For the purposes of this paragraph, a grade that constitutes a failing grade for a course offered in the School District constitutes a failing grade for a course taken at a technical college under this section.

SELECTION OF INSTRUCTIONAL MATERIALS AND EQUIPMENT POLICY 2521

The Board delegates the general review and selection of textbooks and other instructional materials and resources to the District's Assistant Superintendent of Teaching and Learning. The process shall involve obtaining input from at least one or more members of the instructional staff who will be using the materials, and may involve consultation with other personnel such as a school library media specialist and/or the District's Director of Instructional Technology. In general, the Board's expectation is that the selection of core materials intended for use throughout a grade span and/or regardless of the individual instructor (e.g., textbooks) should be subject to a more extensive and participatory process and should involve more District-level oversight and coordination than the selection of class-specific or teacher-specific supplemental materials that are less likely to serve as key elements of the District's course-to-course and grade-to-grade curricula sequences.

Textbook selection recommendations shall be submitted by the Assistant Superintendent of Teaching and Learning to the Board for review and adoption as required by law. The purchase of instructional materials using District funds shall follow established purchasing procedures.

When selecting textbooks and other instructional materials and resources for use in the classroom, consideration shall be given to each of the following factors, allowing for the possibility that, in some cases, staff may determine that a particular factor is not especially relevant:

- A. the extent to which the materials are judged to support and enhance student learning of the subject area(s) being taught, as identified with the input of instructional staff and based on relevant research;
- B. the extent to which the materials (and particularly textbooks) facilitate the District's ability to provide students with an appropriately sequential curriculum, both within a grade/course and from one grade/course level to the next;
- C. the extent to which the materials facilitate an appropriate assessment of student learning;
- D. the overall appropriateness of the materials relative to the intended student audience (i.e., relative to the anticipated range of age, skills, cognition, and maturity of the students who are most likely to use the materials);
- E. a review of the materials for any improper bias, misinformation, or stereotyping;
- F. the extent to which the materials are likely to actively engage students and encourage their interest in learning;
- G. the extent to which the materials facilitate differentiated instruction and the pursuit of universally designed learning objectives, including the extent to which the materials can help members of the instructional staff accommodate learner variability;
- H. the current capacity of staff members to make productive use of the resource, or planning for the staff development that would be needed to build that capacity;
- I. the accessibility of the item to individuals who require special formats (e.g., certain students with disabilities and students with limited English proficiency); and
- J. budgetary considerations, including but not limited to the extent to which the materials being evaluated would address a current priority area among possible alternative acquisitions.

The Board recognizes that occasional objections to textbooks and other instructional materials and resources used in the classroom may occur. When parents or guardians or other individuals have concerns about particular instructional materials or resources, these concerns shall be brought forward in accordance with established administrative procedures, carefully considered, and accorded the courtesy of a prompt reply by appropriate school personnel.

The District shall not unlawfully discriminate in the selection and evaluation of instructional materials or resources on the basis of sex, race, religion, national origin, color, ancestry, creed, pregnancy, marital or parental status, sexual orientation or physical, mental, emotional or learning disability. Discrimination complaints shall be processed in accordance with established District procedures.

The OASD Board directs the District Administration to abide by the WI Statutes that guide the selection and collection of resources in public school libraries. Furthermore, the OASD Board and District Administration reference First Amendment Court Cases, American Library Association, WI Department of Public Instruction, Wisconsin Association of School Boards, Wisconsin Library Association, and the Cooperative Children’s Book Center (School of Education University of WI-Madison) when determining policy that ensures all students have access to a collection of texts that meet the “cultural diversity and pluralistic nature of American society” (as required by WI Statute 121.02(1)(h)).

PROCEDURES FOR THE SELECTION/DESELECTION OF INSTRUCTIONAL MATERIALS

Definition of Instructional Materials

Core curriculum materials: The basic set of instructional materials that serves as the foundation for a curricular area or course content (included are print and non-print materials such as textbooks, workbooks, trade books, multiple copy books, music, modular kits, practice masters, test materials, audiobooks, electronic databases, online resources, digitally downloaded materials, etc.).

Supplementary materials: Any materials, used in their entirety and purchased with District funds, which go beyond core curriculum to extend student opportunities for mastery of learning outcomes or to enrich student learning experiences in a classroom setting (included are other trade books, software programs for the purpose of content learning or mastery, response to intervention instructional materials, educational games, video/DVDs, multiple copy books, audiobooks, electronic databases, online resources, digitally downloaded materials and other print and non-print materials).

Teacher materials: Any instructional or assessment materials created or acquired by the teacher for the purpose of student learning. These resources do not need to be approved through a formal instructional materials selection process. If the teacher created or acquired materials will become the core or regular instructional curriculum for the course, the Director of Instruction must be consulted for approval prior to use with students.

Library media materials: All materials self-selected by students or teachers and circulated from the school libraries for student and/or teacher use, including printed media such as books, pamphlets, periodicals, newspapers, etc., and non-print materials such as, audio tapes, video/DVDs, transparency materials, audiobooks, electronic databases, online resources, digitally downloaded materials, etc. (when used in the classroom for the purpose of group instruction, library media materials will be viewed as supplementary material).

General Criteria for Selection of Instructional Materials Instructional materials are selected following a vetting process that analyzes the resources in relationship to approved Academic Standards, our District’s Strategic Plan, and evidence-based instructional strategies. Instructional materials are also evaluated with all students’ unique learning needs in mind, meaning resources must provide scaffolds and supports to provide our teachers the most comprehensive options to enhance learning for students. Acceptance of gifts is subject to the same criteria as the acquisition of other instructional materials. All applicable copyright laws and guidelines must also apply. 361.1-R(1)

Instructional Materials Selection General Considerations for Selection of Digital Resources

The criteria for selection of digital resources are essentially the same as for print materials. Digital resources such as online applications, digital programs, videos, audiobooks, electronic databases, online

resources, and digitally downloaded materials provide greater access to information.

- A. Enhance the learning experience for students in an age-appropriate manner
- B. Align to expectations in our Network Use Agreement
- C. Be directly applicable to learning intentions or lesson goals
- D. Be for the purpose of education or have a research base to support effective learning
- E. Access to Internet Resources
- F. Access to the Internet is a right and privilege granted to all students by the Oconomowoc Area School District. Through the annual notification process of the Oconomowoc Area School District, parents or guardians will receive the Network Use Agreement, which outlines behavior expectations, including the appropriate and safe use of the Internet Selection and adoption of core instructional materials (i.e. textbooks):

Textbook selection and adoption shall be included as part of the formal cycle for curriculum adoption, evaluation, and improvement in the District. The review and any recommendations to modify the subject-area textbook(s) that are approved for use in the District (or the analogous core instructional material that is used in lieu of a formal textbook) shall occur under the direction and supervision of the District's Director of Curriculum and Instruction. The review and evaluation of textbooks (or analogous core instructional material) shall take into account any general selection criteria outlined in the Board policy and shall also adhere to the following:

- A. Textbooks will be evaluated relative to the District's established curriculum objectives for their coverage of essential content-based and skill-based goals and standards and for the instructional and assessment methodologies that have been adopted or that are encouraged by the authors/publishers.
- B. It is the legal responsibility of the District to provide instructional materials and resources that will enable students with special needs to obtain the educational opportunities and benefits in a manner that is as timely, effective, and integrated as it is for other District students. Accordingly, the District will check with appropriate sources (e.g., Wisconsin Accessible Media Productions or Bookshare) to determine whether the textbook is available (or can be made available) in alternative formats to meet the needs of students with disabilities and other students who may require special formats (e.g., English language learners). The administrator(s) who makes a final recommendation to the Board for approval of a textbook shall ensure that the input of relevant staff has been solicited and given consideration. The administrative recommendation shall be supported by a written summary and evaluation of the textbook resource.

Instructional Materials Selection Upon adoption by the Board, the approved textbook(s) shall be included in designated District areas that are accessible to district staff (e.g., curriculum management system, list of adopted textbooks maintained by the Board clerk) After textbooks are adopted by the Board, the

administration will notify appropriate staff of the approval and arrange for the purchasing and implementation of the textbooks in the District's curriculum. The administration shall also determine the extent to which any staff training may be appropriate to support the proper implementation of the curriculum.

Textbooks (or the analogous core instructional material) will normally be reevaluated as part of the curriculum review cycle. Selection of supplementary materials: It is generally the responsibility of the building level staff (ie principals, teachers, specialists) to determine the need for supplementary curriculum materials and resources for use in classrooms. Supplementary materials and resources are primarily used by the teacher to enhance instruction, or by particular students to meet specific needs. All recommendations for the purchasing of supplementary instructional materials shall be submitted to the building principal and the appropriate curriculum coordinator (e.g. coordinator of elementary education, coordinator of secondary education, and coordinator of instructional technology) with a supporting rationale and for approval under established District purchasing procedures. Even when no purchase is required, all teachers are strongly encouraged to review their selection of supplementary instruction materials with the Building Principal and the appropriate curriculum coordinator prior to actual use as each teacher will ultimately be accountable for her/his decisions. Teachers will select supplemental resources that align to and/or support the learning of content standards guiding the instructional unit(s). This includes mentor texts, videos, and digital or print resources. Teachers are expected to follow Board Policy 381 when selecting materials or supplemental resources that may contain content that is deemed controversial to families. When selecting supplementary instructional materials and resource for use in the classroom, the classroom teacher shall keep in mind selection criteria outlined in Board policy and shall abide by the following procedures:

- A. Supplementary instructional materials and resources should only be selected to support, not supplant, textbooks and related core materials that have been adopted as a component of the District's standard curriculum.
- B. All instructional materials and resources must be used in accordance with current copyright and licensing agreements.
- C. The incorporation of relevant and brief media segments/clips within interactive learning activities that support particular academic standards, curricular goals, or learning objectives is encouraged, but the extended use of media resources for passive listening/viewing activities that occur during classroom instructional time is generally discouraged. o Staff members are expected to obtain the advance approval of the building principal prior to using any audiobooks, documentaries, films, etc. that were not previously evaluated and purchased by the District; and be prepared to justify the instructional value of their planned passive listening/viewing activities upon the request of the building principal.
- D. Any member of the District's instructional staff must first consult with and obtain the prior approval from the District's Coordinator of Continuous Improvement and Innovation: prior to purchasing, using in the classroom, or directing students to access any computer media or other digital resource that requires the District or any user to actively accept licensing terms, terms of service, subscription agreement, requires the creation of student accounts or logins, tracks individual student progress for assessment or other purposes, or requires the submission of identifying information about any individual student.

- E. As with the selection of textbooks, the classroom teacher will consider the accessibility of the particular supplementary instructional material or resource for students with disabilities and other students who may require special formats and whether there are alternate materials or resources that can be used or accessed that will enable students with special needs to obtain the educational opportunities and benefits in a manner that is timely, effective, and integrated as it is of other District students.
- F. Staff intending to propose supplemental instructional resources or digital resources for the purpose of a “pilot” or initial implementation must have gained approval prior to March 1st for use the following school year.

VISION /HEARING SCREENING

Vision and hearing screening is performed annually on all Early Childhood, four-year-old kindergarten and five-year-old kindergarten. Additionally, vision screenings are given to 5th and 8th grade students. Screenings may also be requested on behalf of a student by parents or teachers. Parents may request a screening if they suspect their child is having difficulty with his/her vision or hearing. Request forms are available at all school offices and/or health rooms. You can also make requests by sending a written note to the principal of your school.

A parent or guardian can choose to exclude their child from the vision and/or hearing screening conducted by the school district by completing the Vision/Hearing Exclusion form. This form can be obtained in your school office and should be completed prior to the established site screening date.

ADMINISTRATION OF MEDICATION/EMERGENCY CARE POLICY

5330

The Board shall not be responsible for the diagnosis and treatment of student illness. The administration of medication to a student during school hours will be permitted only when failure to do so would jeopardize the health of the student, the student would not be able to attend school if the medication were not administered during school hours, or the child is disabled and requires medication to benefit from their educational program.

For purposes of this policy, "practitioner" shall include any physician, dentist, podiatrist, optometrist, physician assistant, and advanced practice nurse prescriber who is licensed in any state. "Medication" shall include all drugs including those prescribed by a practitioner and any nonprescription drug products. "Administer" means the direct application of a nonprescription drug product or prescription drug, whether by injection, ingestion, or other means, to the human body. "Nonprescription drug product" means any nonnarcotic drug product which may be sold without a prescription order and which is prepackaged for use by consumers and labeled in accordance with the requirements of State and Federal law.

Before any prescribed medication may be administered to any student during school hours, the Board shall require annual written instructions and permissions.

- A. Prescription medications may be given to any student only upon the receipt of written instructions from the medical practitioner and written parent/guardian permission. Prescription medications shall

be supplied in its pharmacy-labeled package and must list the student's full name, name of the medication and dosage, time, and quantity to be given, practitioner's name, effective date, and directions for use. Parent/guardian, and with the approval of the District Nurse(s), may administer medication.

- B. Nonprescription drug products may be administered to any student with the prior written consent and instructions from the parent/guardian. Parent/guardian, of students authorized in writing by their parent/guardian, and with the approval of the District Nurse(s), may administer medication. Nonprescription medications shall be supplied in its original manufacturer's package which lists the ingredients and recommended therapeutic dosage in legible format.
1. Any dosage of nonprescription medication other than that listed on the manufacturer's package must be authorized in writing by a medical practitioner.
 2. Substances, that are not FDA approved (i.e. natural products, food supplements), will require the written instruction of a practitioner and the written consent of the parent.
 3. No CBD products will be permitted for use at school.
 4. All students wishing to use essential oils in the school must seek prior approval from administrators and must be administered by the parent/guardian.

All prescription medication shall be secured and appropriately stored (allowing for quick access and retrieval before, during, and after school hours), unless the medication is a medication that the student is authorized to carry and self-administer by authorization of the student's parent/guardian and/or practitioner and with the approval of the District Nurse(s), and the possession of such medication by the student in school is not prohibited by law or regulation.

Students are prohibited from possessing, using, carrying, or distributing in school or on school grounds drugs or other products which, even though not defined as a drug, are used or marketed for use for medicinal purposes, such as to relieve pain or to relieve the symptoms of an underlying medical condition (including aspirin, ibuprofen, dietary supplements, CBD oil products, etc.). No student is allowed to provide or sell any type of medication to another student. The provisions of this policy are to be viewed together with the Board policy on Drug Prevention, Policy 5530, and violations of this rule will be considered violations of the same policy.

The document authorizing the administration of both prescription and nonprescription medication shall be kept on file in the administrative offices and will be maintained in accordance with the District Administrator's guidelines. The district nurse will periodically review the provided medication administration instructions, errors, medication documentation (including health care plans, consent forms, and administration of each dose of medication), and training of persons authorized to administer medications to students.

The Board shall permit the administration by designated school personnel of any medication requiring a delivery method other than oral ingestion when both the medication and the procedure are prescribed by a practitioner and the delivery is under the supervision of a licensed nurse, provided that school personnel has completed any necessary training and that school personnel voluntarily agrees to deliver the

medication. No school personnel, other than a healthcare professional, may be required to administer by means other than oral ingestion.

Any designated school personnel or trained volunteers, authorized in writing by the Board, the District Administrator, or principal is immune from liability for their acts of omission in administering medication including, but not limited to rescue inhaler, epinephrine, glucagon, rescue seizure medication, or opioid antagonist, unless the act of omission constitutes a high degree of negligence and, in the case of any designated school personnel or volunteer who administers an opioid antagonist, the designated school personnel or volunteer contacts emergency medical services as soon as practicable after administering the medication to report the suspected overdose. Such immunity does not apply to healthcare professionals.

Any administrator or principal who authorizes an employee or volunteer to administer a nonprescription drug product or prescription drug to a student is immune from civil liability for the act of authorization unless it constitutes a high degree of negligence or the administrator or principal authorizes a person who has not received the required Department of Public Instruction training to administer the nonprescription drug product or prescription drug to a student. School nurses, as District employees, are regulated by the Wisconsin Nurse Practice Act and are therefore not necessarily immune from civil liability.

Stock emergency medications, including Epinephrine and Naloxone (NARCAN), may be obtained and administered by trained school personnel to a student or other person whom is believed, in good faith to be experiencing such an emergency, according to written protocol as approved by the District Medical Advisor. In such instance in which these emergency medications are given, the person who administers the medication shall contact emergency medical services as soon as possible.

Any staff member or volunteer who, in good faith, renders emergency care to a student is immune from civil liability for their acts or omissions in rendering such emergency care.

The District Nurse(s) providing services or consultation on the District's Emergency Nursing Services Plan has provided assistance in the development of this policy. The plan shall provide the District acquisition and maintenance of the Epinephrin and opioid antagonists for use in the event designated school personnel observes an anaphylactic reaction or apparent overdose.

Epinephrine Auto-Injectors

The Board intends to adopt and maintain a plan for managing students with life-threatening allergies so as to permit each school to obtain a school prescription for epinephrine auto-injectors and to permit each school nurse and designated school personnel to administer them. Accordingly, the Board directs the District Administrator and the school nursing staff to develop a plan that meets the following:

- A. specifies those designated school personnel who have agreed to receive training and who will be trained and authorized to perform the functions of the plan;
- B. identifies the specific training program that will be implemented to prepare each school nurse and designated school personnel to identify the signs of anaphylaxis and to provide or administer epinephrine auto-injectors accordingly;
- C. delineates the permissible scope of usage to include providing District-owned epinephrine auto-injectors to students who have a prescription on file with the school in the event the student is

experiencing an anaphylactic event and/or administering epinephrine auto-injectors to such students, and/or administering epinephrine auto-injector treatment to any student, regardless of whether the student has a prescription on file or the staff member so trained is not aware of whether the student has a prescription on file, but believes in good faith the student is suffering from anaphylaxis, provided that the staff member immediately contacts emergency medical services;

- D. identifies the number and type of epinephrine auto-injectors each school will keep on-site and identifies a member of the nursing staff or other school official who will be responsible for maintaining the epinephrine auto-injectors supply;
- E. is approved by a physician licensed in the State of Wisconsin;
- F. notes that the school and any school nurse or designated school personnel that provide or administer epinephrine auto-injectors under this plan are immune from civil liability for any harm that may result, regardless of whether there is a parental or medical provider authorization, unless the administration was a result of gross negligence or willful or wanton misconduct;
- G. is published on the District's website or the website of each school is made available to any person upon request until such time as the District has a website on which it can be published.

HIGHLY QUALIFIED TEACHERS

Federal law requires that we share with you the qualifications of teachers in the Oconomowoc Area School District. There are questions you may ask, including:

- Is my child's teacher licensed to teach the grades or subjects assigned?
- Has the state waived any requirements for my child's teacher?
- What was the college major of my child's teacher?
- What degrees does my child's teacher hold?
- Are there instructional aides working with my child? If so, what are their qualifications?

All teachers working in the Oconomowoc Area School District have a minimum of a bachelor's degree and are duly licensed in their area of assignment. If you want to see the state qualification for your child's teacher you may ask us or find it on the DPI website at <https://dpi.wi.gov/licensing/license-lookup>

In addition, we employ instructional aides, who are considered qualified for the work to which they are assigned. If you would like more information about the teachers and instructional aides assigned to your child's school you may contact the principal at your child's school or call the Oconomowoc Area School District Office of Human Resources at (262) 560-2151.

STUDENT RECORDS POLICY 8330

In order to provide appropriate educational services and programming, the Board must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Except for data identified by policy as "directory data," student "personally identifiable information"

includes, but is not limited to: the student's name; the name of the student's parent or other family members; the address of the student or student's family; a personal identifier, such as the student's social security number, student number, or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the District reasonably believes knows the identity of the student to whom the education record relates.

Reference in this policy to "directory data," includes reference to "directory information," in the context of the Family Educational Rights and Privacy Act (FERPA).

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and/or necessary and relevant to the function of the School District or specifically permitted by this Board will be compiled by Board employees.

In all cases, permitted, narrative information in student records shall be objectively-based on the personal observation or knowledge of the originator.

Student records shall be available only to students and their parents, eligible students, designated school officials who have a legitimate educational interest in the information, or to other individuals or organizations as permitted by law.

Address Confidentiality Program

Students who are verified participants in the Safe at Home/Address Confidentiality Program administered by the Wisconsin Department of Justice shall be permitted to use their substitute assigned address for all District purposes. The Board shall refrain from including the student's actual/confidential residential address in any student records or files (including electronic records and files) or disclosing the student's actual/confidential residential address when releasing student records. The Board shall only list the address designated by the Wisconsin Department of Justice to serve as the student's address in any student records or files, including electronic records and files. Further, the Board shall use the student's substitute assigned address for any and all communications and correspondence between the Board and the parent(s) of the student (or adult student). The student's actual/confidential residential address shall be maintained in a separate confidential file that is not accessible to the public or any employees without a legitimate purpose. The intentional disclosure of a student's actual/confidential residential address is prohibited.

The Board may enter into a memorandum of understanding with a county department under State statutes (s. 46.215, 46.22, or 46.23) or a tribal organization, as defined under Federal law, that permits disclosure of information contained in student records as provided under State law in cases in which the student's parent if the student is a minor, or the student if the student is an adult, does not grant permission for such disclosure.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives or a person who is legally responsible for the welfare

of the child). The term "eligible student" or "adult student" refers to a student who is eighteen (18) years of age or older.

Both parents shall have equal access to student records unless stipulated otherwise by court order or law. In the case of adult students, parents may be allowed access to the records without the student's consent, provided the student is considered a dependent under section 152 of the Internal Revenue Code, and provided that the student has not made a written request to the District that their parents not be permitted access to personally identifiable information from their records.

A school official is a person employed by the Board as an administrator, supervisor, teacher/instructor (including substitutes), or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company with whom the Board has contracted to perform a special task (such as an attorney, auditor, or medical consultant); a contractor, consultant, volunteer, or other party to whom the Board has outsourced a service otherwise performed by Board employees (e.g. a therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing tasks (including volunteers).

"Legitimate educational interest" is defined as a "direct or delegated responsibility for helping the student achieve one (1) or more of the educational goals of the District" or if the record is necessary in order for the school official to perform an administrative, supervisory, or instructional task or to perform a service or benefit for the student or the student's family. The Board directs that reasonable and appropriate methods (including but not limited to physical and/or technological access controls) are utilized to control access to student records and to make certain that school officials obtain access to only those education records in which they have a legitimate educational interest.

The Board authorizes the administration to:

- A. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a private or public school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that:
 1. a reasonable attempt is made to notify the student's parent or eligible student of the transfer (unless the disclosure is initiated by the parent or eligible student; or the Board's annual notification - Form 8330 F9 - includes a notice that the Board will forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer);
 2. the parent or eligible student, upon request, receive a copy of the record;
 3. the parent or eligible student, upon request, has an opportunity for a hearing to challenge the content of the record; and
 4. no later than the next working day, the District shall transfer to another school, including a

private or tribal school, or school district, all student records relating to a specific student if the transferring school district or private school has received written notice from the student (if an adult) or their parent or guardian if the student is a minor that the student intends to enroll in the other school or school district or written notice from the other school or school district that the student has enrolled or from a court that the student has been placed in a juvenile correctional facility, as defined in s. 938.02(10p), or a secured residential care center for children and youth, as defined in s. 938.02(15g);

In this subsection, "school" and "school district" include any juvenile correctional facility, secured residential care center for children and youth, adult correctional institution, mental health institute, or center for the developmentally disabled that provides an educational program for its residents instead of, or in addition to, that which is provided by public, private, and tribal schools.

- B. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a juvenile detention facility in which the student has been placed, or a juvenile court that has taken jurisdiction of the student;
- C. disclose student records that are pertinent to addressing a student's educational needs to a caseworker or other representative of the department of children and families, a county department under s. 46.215, 46.22, or 46.23, or a tribal organization, as defined in 25 USC 450b(L), that is legally responsible for the care and protection of the student, if the caseworker or other representative is authorized by that department, county department, or tribal organization to access the student's case plan;
- D. provide "personally-identifiable" information to appropriate parties, including parents of an eligible student, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals, if there is an articulable and significant threat to the health or safety of a student or other individuals, considering the totality of the circumstances;
- E. report a crime committed by a child to appropriate authorities, and with respect to reporting a crime committed by a student with a disability, to transmit copies of the student's special education and disciplinary records to the authorities for their consideration;
- F. release de-identified records and information in accordance with Federal regulations;
- G. disclose personally identifiable information from education records, without consent, to organizations conducting studies "for or on behalf of" the District for purposes of developing, validating or administering predictive tests, administering student aid programs, or improving instruction;

Information disclosed under this exception must be protected so that students and parents cannot be personally identified by anyone other than a representative of the organization conducting the study, and must be destroyed when no longer needed for the study. In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the

purpose of the study.

This written agreement must include: (1) specification of the purpose, scope, duration of the study, and the information to be disclosed; (2) a statement requiring the organization to use the personally identifiable information only to meet the purpose of the study; (3) a statement requiring the organization to prohibit personal identification of parents and students by anyone other than a representative of the organization with legitimate interests; and (4) a requirement that the organization destroy all personally identifiable information when it is no longer needed for the study, along with a specific time period in which the information must be destroyed.

While the disclosure of personally identifiable information without consent is allowed under this exception, it is recommended that whenever possible the administration either release de-identified information or remove the students' names and social security identification numbers to reduce the risk of unauthorized disclosure of personally identifiable information.

- H. disclose personally identifiable information from education records without consent, to authorized representatives of the Federal government, as well as State and local educational authorities; The disclosed records must be used to audit or evaluate a Federal or State supported education program, or to enforce or comply with Federal requirements related to those education programs. A written agreement between the parties is required under this exception.

This written agreement must include: (1) designation of the receiving entity as an authorized representative; (2) specification of the information to be disclosed; (3) specification that the purpose of the disclosure is to carry out an audit or evaluation of a government-supported educational program or to enforce or comply with the program's legal requirements; (4) a summary of the activity that includes a description of methodology and an explanation of why personally identifiable information is necessary to accomplish the activity; (5) a statement requiring the organization to destroy all personally identifiable information when it is no longer needed for the study, along with a specific time period in which the information must be destroyed; and (6) a statement of policies and procedures that will protect personally identifiable information from further disclosure or unauthorized use.

Under the audit exception, the District will use "reasonable methods" to verify that the authorized representative complies with FERPA regulations. Specifically, the District will verify, to the greatest extent practicable, that the personally identifiable information is used only for the audit, evaluation, or enforcement of a government-supported educational program. The District will also ascertain the legitimacy of the audit or evaluation and will only disclose the specific records that the authorized representative needs. Further, the District will require the authorized representative to use the records only for the specified purpose and not to disclose the information any further, such as for another audit or evaluation. Finally, the District will verify that the information is destroyed when no longer needed for the audit, evaluation, or compliance activity.

- I. request each person or party requesting access to a student's record to abide by Federal regulations and State laws concerning the disclosure of information.

The Board will comply with a legitimate request for access to a student's records within a reasonable period

of time but not more than forty-five (45) days after receiving the request or within such shorter period as may be applicable to students with disabilities. Upon the request of the viewer, a record shall be reproduced unless said record is copyrighted, or otherwise restricted, and the viewer may be charged a fee equivalent to the cost of handling and reproduction. Based upon reasonable requests, viewers of education records will receive explanation and interpretation of the records.

The Board shall maintain a record of each request for access and each disclosure of personally identifiable information. RELATIONS WITH PARENTS POLICY 9250

The Board believes that the education of children is a joint responsibility, one it shares with the parents of the school community. To ensure that the best interests of the child are served in this process, a strong program of communication between home and school must be maintained. To this end, the Board, administration, and staff shall take active measures to involve families in their children's education and related decision making. Parents or Guardians shall be treated as full partners in the educational process and in decisions that affect children and families.

The Board believes that it is the parents who have the ultimate responsibility for their children's in-school behavior, including the behavior of students who have reached the legal age of majority, but are still, for all practical purposes, under parental authority. During school hours, the Board, through its designated administrators, acts *in loco parentis* or in place of the parents.

The Board recommends that the following activities be implemented to encourage parent-school cooperation:

- A. parent-teacher conferences to permit two-way communication between home and school
- B. open houses in District schools to provide parents with the opportunity to see the school facilities, meet the faculty, and sample the program on a first-hand basis

Each school in the District shall hold an open house at least annually.

For the benefit of children, the Board believes that parents have a responsibility to encourage their child's career in school by:

- A. supporting the schools in requiring that the children observe all school rules and regulations, and by accepting their own responsibility for children's willful in-school behavior;
- B. sending children to school with proper attention to their health, personal cleanliness, and dress;
- C. maintaining an active interest in the student's daily work and making it possible for the student to complete assigned homework by providing a quiet place and suitable conditions for study;
- D. reading all communications from the school, signing, and returning them promptly when required;
- E. cooperating with the school in attending conferences set up for the exchange of information of the child's p
